OUTPATIENT MENTAL HEALTH SERVICES

Helpful terms:

Confidentiality-therapists and group participants must keep personal information shared in a therapeutic session confidential (not shared with outside parties) unless a release is signed by the client allowing information to be shared with a designated person or agency. Confidentiality can be broken (information shared) if a client reports suicidal thoughts, thoughts of self-harm, homicidal thoughts, the abuse of a child or the abuse of an elderly person. Confidentiality is broken in situations of potential danger only for the purpose of safety of the client or another party.

Individual Therapy-one to one sessions between a client and a therapist or counselor.

Group Therapy-therapeutic sessions with multiple people lead by a therapist or counselor.

Support Groups-sessions with multiple people, usually lead by a therapist or counselor, with the purpose of building support between group members with a shared experience.

Peer Support-group and individual sessions where a person with a lived experience of recovery offers support, encouragement and knowledge to a person or people in recovery.

Intensive Outpatient Treatment or Program (IOP)-a structured program that meets either for a full day or half day over the course of several weeks. IOP programs utilize group therapy, individual therapy, support groups and therapeutic activities.

Case Management-social service assistance is provided to a client by a case manager. Case managers can help clients enroll in therapeutic care, social services, coordinate appointments, locate resources, offer support and guidance. The level of assistance is based on the case management program. Some case management offers transportation to the client for appointments.

Care Coordination-assistance in locating and coordinating mental health and social services. Care coordinators can make referrals to services, assist in making appointments, offer support and guidance.

Medication Management-a medication prescriber helps a client manage their mental health symptoms through assessment, medication history and medication compliance. Adjustments to medications are made to help the client have the best outcome in managing their symptoms.

Crisis Intervention-a short-term event where trained staff helps to stabilize a person in crisis.

Voluntary Commitment-when a person that is experiencing a mental health or behavioral crisis agrees to go to a short-term psychiatric hospital or clinic for stabilization.

Involuntary Commitment- when a person that is experiencing a mental health or behavioral crisis is committed to a short-term psychiatric hospital or clinic for stabilization by a qualified and certified behavioral health practitioner (certified social worker, medical doctor, psychiatric doctor).

ASSISTANCE IN APPLYING FOR SOCIAL SECURITY DISABILITY BENEFITS

Social Security Disability Insurance (SSDI) is a payroll tax-funded federal insurance program of the United States government managed by the Social Security Administration. The recipient must have a medically determinable disability that interferes with their ability to work. If approved, the recipient receives monthly benefits.

Supplemental Security Income (SSI) is a program that provides cash payments to disabled children, disabled adults and people over the age of 65.

The application for SSDI requires work history up to the time of disability, medical and mental health records to document the disability, marriages, and divorces, contact information, emergency contact information, names and dates of birth of your minor children and spouse and any worker's compensation or other disability awards.

The application for SSI requires proof of income, proof of resources, proof of living arrangements, medical documentation and any work history.

You can apply for SSI and SSDI online at <https://www.ssa.gov>

You can apply in person at the Knoxville Social Security Administration office (call ahead to schedule an appointment).

Care Coordinators with the McNabb Center have been trained through the SOAR program which allows them to assist people in applying for SSI/SSDI. SOAR is a program designed to help speed up the application process to help people get benefits quicker.

You can also hire a disability attorney to assist you with the application process. Attorneys generally will take a portion of the initial reward for their fee. Assistance from an attorney can sometimes help speed up the application process. You can find attorneys by searching online for disability attorneys.
