#### OFFICE OF COUNTY MAYOR

Department of Finance • 400 Main Street, Suite 630, Knoxville, TN 37902

November 23, 2010

To the Board of Knox County Commissioners and the Citizens of Knox County, Tennessee:

The Comprehensive Annual Financial Report (CAFR) of Knox County, Tennessee (the County) for the fiscal year ended June 30, 2010, is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentations, including all disclosures, rests with the County. County management assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that has been established for that purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the County and its component units. All disclosures necessary to enable the reader to gain an understanding of the County's activities have been included.

The introductory section includes this transmittal letter, the County's organization chart, and a list of principal officials. The financial section includes Management's Discussion & Analysis (MD&A), the basic government-wide and fund financial statements and notes to the financial statements. The Financial Section also includes Required Supplementary Information and other supplemental information. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The reader is directed to the MD&A for a narrative introduction, overview and analysis of the financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Knox County's MD&A can be found immediately following the report of the independent auditors.

State law requires that the County obtain an annual audit of its books and records. The independent audit performed by KPMG LLP, Certified Public Accountants, has been obtained to fulfill that requirement. The auditors have issued an unqualified ("clean") opinion on the County's financial statements for the year ended June 30, 2010. The independent auditors' report is located at the front of the financial section of this report. The County is also required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, as amended, and U.S. Office of Management and Budget's Circular A-133, *Audits of State and Local Governments*. Information related to this single audit, including schedules of federal financial assistance, findings and recommendations, and auditor's reports on the internal control structure and compliance with applicable laws and regulations, is included in a separately issued report.

The financial reporting entity (the government) includes all the funds of the Primary Government (i.e., the County) as well as its component units. Component units are legally separate entities for which the primary government is financially accountable. Component units are discretely presented

in separate columns in the government-wide financial statements to emphasize they are legally separate from the primary government and to differentiate their financial position, results of operations, and cash flows from those of the primary government. The Knox County Board of Education (the Board), Knox County Emergency Communications District (the District), and the Knox County Railroad Authority (KCRA) are reported as discretely presented component units. The County and its Component Units provide a full range of services including, but not limited to, the construction and maintenance of highways, streets and infrastructure, public health and welfare, police protection, emergency telephone services, elementary and secondary education, community services, sanitation services, and recreational and cultural events. Because of the close relationship between the County and the Board and the fact that the Board does not issue financial statements separate from those of the County, several of the supplemental schedules and other financial information have been consolidated to more properly reflect the joint activities of the County and the Board.

#### **GOVERNMENTAL STRUCTURE**

The County has operated under a County Mayor/County Commission form of government since September 1, 1980, and has been under a Home Rule Charter (Charter) since September 1, 1990. Policymaking and legislative authority are vested in the County Mayor (the executive branch of the County) and the County Commission (the legislative branch of the County). The County Commission is responsible for, among other things, passing ordinances, adopting the budget and appointing committees. The County Mayor, elected at-large for a four-year term, is responsible for carrying out the policies and ordinances of the County Commission, overseeing the day-to-day operations of the government and appointing the heads of many of the County's departments.

#### OFFICE OF THE COUNTY MAYOR

Mayor Mike Ragsdale finished his second term of office August 31, 2010, shortly after the fiscal year ended June 30, 2010. This section of this document will review some of the Knox County community's achievements over the past eight years:

#### Every School a Great School

- Championed Basic Education Program reform, resulting in an additional \$19 million annually to our schools
- Increased the level of education funding by more than \$80 million
- Established "Read With Me" program to put 400 volunteer readers in K-3<sup>rd</sup> grades countywide; received 2004 National Association of Counties Achievement Award
- Opened new Amherst and Brickey-McCloud Elementary Schools and Hardin Valley Academy
- Expanded and renovated Powell Middle, Cedar Bluff Primary and Gibbs Elementary Schools
- Implemented knoxAchieves community college scholarship program for county high school seniors
- Held education summits to engage the community in improving our education system
- Implemented "Birth to Kindergarten" program
- Increased ACT scores above state and national averages
- Implemented Teacher Advancement Program (TAP) successfully at Holston Middle and Northwest Middle Schools, and Pond Gap and Lonsdale Elementary Schools
- Held annual First Day Festivals to encourage families to celebrate back to school

#### Senior Citizens/Veterans

- Opened Halls, South Knoxville, Corryton and Carter Senior Centers
- Expanded John T. O'Connor and Frank Strang Centers with \$2 million capital investments
- Held regional summits on senior fraud and abuse
- Held annual senior appreciation picnics
- Opened the Ben Atchley State Veterans' Home
- Opened the East Tennessee Veterans' Memorial

#### **Economic Results**

- Received highest bond ratings in the county's history from both Moody's and Standard & Poor's bond rating agencies. During 2010 the County received an upgraded Aa1 bond rating from Moody's, and maintained its AA+ bond rating from Standard & Poor's that had been upgraded in 2009.
- Maintained the lowest unemployment rate for all Tennessee urban counties, even through tough economic times
- Did not increase the property tax rate throughout eight years in office
- Created workforce development initiatives with Jobs Now and Innovation Valley
- Developed Pellissippi Place regional research park
- Developed supplier diversity program that has been commended by the Small Business Administration for its efforts that positively affect the economy
- Developed mentoring program for small and minority-owned business leaders

#### Making Government Better Every Day

- Received 2005 National Association of Counties Courthouse Award for "Excellence in Government." Only three awarded annually
- Addressed jail overcrowding with a Jail Population Reduction Program; received 2010 National Association of Counties Achievement Award
- Managed Health Department that is recognized as national model
  - o Developed Dispensary of Hope medication assistance program for the uninsured
  - o Managed model FluMist program in county schools and daycare centers
  - o Implemented Together! Healthy Knox, a community approach to better health
  - o Implemented Healthy Kids, Healthy Communities childhood obesity initiative
- Parks and Recreation program:
  - o Opened or rededicated eight new parks: New Harvest, Schumpert, Powell, Mascot Place, Burlington, Spring Place, Carl Cowen, South-Doyle Cherokee
  - o Opened greenways and trails: Ten Mile Creek, Pinkston, Sarah Moore Green
  - Opened Mascot Community Center
  - o Implemented Adopt-a-Park program; received 2010 National Association of County Information Officers Superior Award
  - Opened Farmers Market at New Harvest Park
  - o Developed Holiday Festival of Lights at the Cove
- Public Library System:
  - o Opened four new libraries: Burlington, Fountain City, Halls, Powell
  - Developed Children's Festival of Reading; received 2010 National Association of County Information Officers Excellence Award
  - o Annually provided summer reading programs for children, teens and adults

#### Board of County Commissioners and the Citizens of Knox County, Tennessee Page iv

- Provided more than 600,000 books to our youngest citizens free of charge through Imagination Library
- o Expanded Beck Cultural Exchange Center
- Green initiatives:
  - o Initiated \$16 million energy efficiency upgrade to county facilities
  - o Built solar hot water farm at detention facility
  - o Created employee and citizen versions of Knox Green Team
  - o Developed Master Recycler Program
  - o Instituted Rainy Day Brushoff & Medication Collection Task Force programs that won Governor's Environmental Stewardship Award
  - o Recycled over 10 million pounds of papers, plastic, etc., at convenience centers
  - Opened downtown recycling center
- Developed Knox County Happenings social media sites on Facebook and Twitter
- Created Knox County Snapshot (frequently requested documents available on demand from county website)
- Developed DUI litter pick-up program that has cleaned up 1,000 miles of road, resulting in a \$50,000 savings to the county
- Enabled Knox County online content in Spanish
- Opened Solid Waste and Recycling Convenience Center in Halls

#### Legislative Initiatives

Impact of State Funding: Knox County, like the other 94 county governments in Tennessee, receives significant support from state-shared revenues -- mainly in the form of education and highway dollars. Because of this dependence, the legislative activities of the Tennessee General Assembly are carefully monitored. Thanks to the continuing leadership of our Governor, the State again passed a responsible, balanced budget. We at the local level are thankful for the fiscal responsibility demonstrated by the State Budget. The rating agencies have recognized these positive trends toward financial responsibility enabling the State to regain its "triple AAA" bond rating, as has been our tradition for a long time. A healthy State budget means more stable and predictable revenues for all cities and counties.

#### Capital Improvement Initiatives

As evidence of the County's commitment to build the facilities necessary to serve the citizens of Knox County and promote economic development within the County and region, the County Commission adopted the Knox County Capital Improvement Plan. At the recommendation of the County Mayor, the five-year capital plan represents a road map of anticipated major capital projects. It does not represent appropriations and is subject to annual revisions or modifications. These individual projects will be primarily funded through general obligation bonded debt.

During the year, the County and the Board expended significant resources in the following major construction/renovation projects in accordance with the County's Capital Plan:

General Construction/Renovation:

General Project Management Various Library Upgrades Technology Upgrades Powell Middle School

City County Improvements/Developments Many Parks and Greenways Improvements Health Department Renovations Energy Management Project

School Construction/Renovation:

Physical Plant Upgrades Energy Management Project Hardin Valley High School Road Construction/Improvements:

Ball Camp Pike

Various Stormwater Improvements

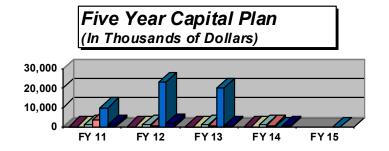

Gallaher View Road

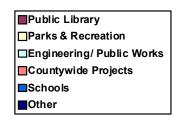

General Road Improvements

Convenience Centers

The following summarizes the capital improvement plan net of estimated allocations for project schedule variances (amounts expressed in thousands):

Project Description	FY 10-11	FY 11-12	FY 12-13	FY 13-14	FY 14-15	TOTAL
Libraries	\$ 100	\$ 100	\$ 100	\$ 100	\$ -	\$ 400
Countywide Projects	3,577	777	777	777	-	5,908
Parks & Recreation	150	150	150	150	-	600
Engineering & Public Works	1,000	1,000	1,000	1,000	-	4,000
Building Upgrades through PBA	926	1,483	653	500	-	3,562
Schools	10,000	23,100	20,000	-	-	53,100
Total – Approved Projects	\$ 15,753	\$ 26,610	\$ 22,680	\$ 2,527	\$ -	\$ 67,570

#### LOCAL ECONOMIC CONDITION AND OUTLOOK

The County is the third most populated county in the State of Tennessee. Located in Middle Eastern Tennessee at the headwaters of the Tennessee River, it is the hub of the areas of East Tennessee, Southeast Kentucky, Southwest Virginia and Western North Carolina. This area encompasses over two million people. The U.S. Census Bureau estimates that, as of 2009, 435,725 citizens reside within the total land area of approximately 526 square miles that make up Knox County. (See MPC: Population Data for additional information regarding population information, demographics, and other information about Knox County.) Knoxville, the County seat, is about 50 miles west of the North Carolina state line.

The City of Knoxville's population in 2009 was estimated at 185,100. It is the largest incorporated municipality in the County. Farragut, the only other municipality in the County, has an estimated population of 20,689. Knoxville has a land area of approximately 93 square miles within its corporate limits and is located on the Tennessee River near the geographic center of East Tennessee.

#### Manufacturing and Commerce

Located in the northeastern portion of the State, the County, along with Anderson, Blount, Loudon, and Union counties, is part of the Knoxville Metropolitan Statistical Area (MSA). Because of its central location in the eastern United States, the County metropolitan area serves thousands of industrial and commercial customers in a concentrated eight-state area. It is within 500 miles of approximately one-third of the population of the United States. For many years the County has been known as one of the South's leading wholesale markets. Based on 2009 estimates, there were more than 919 wholesale distribution houses, 1,653 retail establishments, and over 5,318 service industries located in the County.

The area is the trade center for a 42-county region, located in East Tennessee, Kentucky, Virginia and North Carolina, which serves over two million people. It also is the cultural, tourist, and professional center for this region.

The MSA includes nearly 750 manufacturing firms, which produce a large variety of items including medical devices, electronic components, chemicals, manufactured housing, apparel, and automobile parts.

#### **Business Climate**

The County has a history of being a regional leader in economic activity. The County offers premier location opportunities for high-technology and precision manufacturing firms. The business climate in Knox County is strong. The University of Tennessee, Tennessee Valley Authority and the Oak Ridge National Laboratory provide a stable, secure employment base. The Knoxville area is home to many medium-sized manufacturing and distribution operations as well as customer service centers. The Knoxville area boasts a strong and reliable workforce, and low union membership rates. These assets, combined with an excellent location at the intersections of Interstates 40, 75 and 81, make Knox County a great location for any business. In effort to complement industrial development and recruitment, the Development Corporation of Knox County and the County teamed up to create the Knox County Industrial Scholar's Program. This program provides tuition reimbursement scholarships for students studying in five disciplines in which there is currently a strong need for qualified workers.

#### Industrial Investment

The Knoxville MSA has been recognized nationally as a leading location to live and do business. Some of the accolades include:

- Expansion Management magazine ranked # 9 in America's Hottest Cities for Business Relocation & Expansion
- Forbes magazine # 5 Best Places for Business & Careers
- Forbes magazine # 8 Best Places to Raise a Family
- *Inc.* magazine a Top Mid-Sized Boom Town
- Site Selection magazine # 5 Best Overall Business Climate
- Southern Business & Development # 6 Top Ten Mid-Markets of the Decade
- Business Facilities 2010 Editor's Location Pick

This is recognition of a diverse market. Commerce and industry vary from the media success of Scripps Television Networks (HGTV, DIY, Food Network, GAC, and Travel), to Sysco Corporation's (largest food service marketer and distributor in North America) regional warehouse and distribution center. In addition, many other local companies are recognized as national and global leaders, including Clayton Homes, Brunswick Corporation, Green Mountain Coffee, Bush Brothers Beans, Pilot Corporation, and Ruby Tuesday.

The area is also gaining a reputation as a prime location for corporate headquarters. With 90 corporate headquarters, both large and small, already here, the reputation was enhanced when Cornell Dubilier Foil purchased a 90,000-square-foot manufacturing facility and Scripps Networks expanded its corporate home. Other high profile companies headquartered here in the MSA include the Tennessee Valley Authority, Jewelry Television, AC Entertainment, DeRoyal Industries, Pet Safe/Radio Systems Corporation, and Regal Entertainment. Knox County has 11 business parks and a Technology Corridor to meet a wide range of corporate facility needs. In 2009, over 563 new jobs were created in Knox County and 2,115 jobs were added across the metro area.

Board of County Commissioners and the Citizens of Knox County, Tennessee Page viii

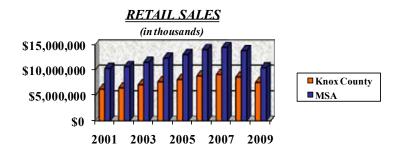

#### Innovation Valley

Innovation Valley Inc. is a regional economic development initiative centered on a 25-mile Technology Corridor with world-class resources in science, technology, and business. Experience shows that a regional approach to economic development offers the most advantages to businesses planning a corporate relocation or expansion as well as to the communities involved.

The partnership was created to implement a five-year economic development blueprint for business growth in the Knoxville-Oak Ridge area of East Tennessee. The blueprint outlines 13 targeted industry sectors that are based on an analysis of the region's world-class resources. Six program areas provide the framework for the group's business relocation and industrial development efforts.

#### **Commercial Development**

Four regional shopping malls and nearly 182 shopping centers and factory outlets meet the retail needs of Knox County citizens and visitors. Knox County has traditionally been the regional hub of the MSA. Of the nearly \$10.4 billion economy, Knox County has traditionally accounted for a solid majority.

#### State Economic Perspective

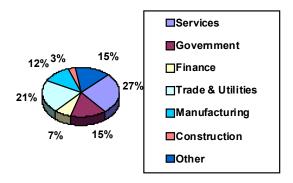

Tennessee is a traditionally business-friendly, low-tax state. Tennessee's fate hinges on the path taken by the global and national economies in the quarters ahead.

According to the analysis reported in the 2010 Tennessee Economic Report published by the University of Tennessee (<a href="http://cber.utk.edu/erg/erg2010.pdf">http://cber.utk.edu/erg/erg2010.pdf</a>), the state's nominal personal income is expected to grow by 2.1 percent for 2010, improving to 3.5 percent in 2011. Taxable sales are projected to increase by 2.1 percent in 2010. Tennessee's unemployment rate has drifted upward since achieving a record low rate of 4.5 percent in the first quarter of 2007. The state unemployment rate is expected to average 10.4 percent in 2010, and remain at more than 10 percent in 2011.

Board of County Commissioners and the Citizens of Knox County, Tennessee Page ix

#### **Employment Information**

#### NON-AGRICULTURAL EMPLOYMENT

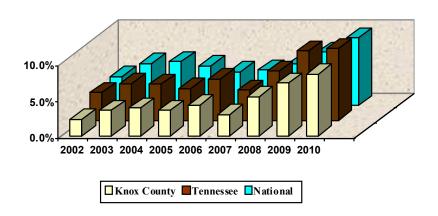

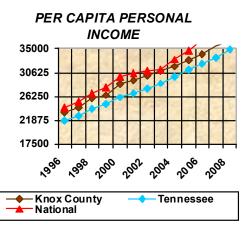

Knox County has demonstrated a very healthy diversity in employment. Services and trade are the two largest employment sectors in the County metropolitan area, followed by Government.

#### **Economic Data**

Historically, Knox County's unemployment rate has been low relative to the state and national rates. This relationship has held, although rates have increased in this current recession. For the month of June 2010, the seasonally unadjusted unemployment rates for the County, state and nation stood at 7.8%, 10.1% and 9.5%, respectively.

#### **UNEMPLOYMENT DATA**

Due to the County's importance as a regional commercial base, the County's level of per capita income has traditionally exceeded the State level. The 2007 data ranks Knox County 7th highest in Tennessee in this measure.

#### **Tourism**

Knoxville & Knox County is home to both the U.T men's and 8-time national champion women's basketball teams. Thompson Boling Arena recently has been renovated and now is one of the most college basketball elaborate facilities in the nation, seating 21,678. The site is also used for other events such as concerts. conventions, and other sporting events

Although industry is frequently considered the core of an economic base, secondary and tertiary activities also make important contributions to economic development. The convention and tourism business contribute to the County's economic base by drawing income into the region -- resulting in employment and investment opportunities in tourist-related facilities.

The influx of tourist dollars provides stimulus to economic activity in the area. Two major interstate highways, I-40 and I-75, flow through the County, and the southern end of I-81 terminates just outside the County. The interstate and highway systems put the County within a day's drive of more than 70 million people.

The County is the principal gateway to the Great Smoky Mountains National Park located approximately 40 miles to the southeast. The park covers over 500,000 acres and extends over the States of Tennessee and North Carolina. Visitors, number nearly ten million annually making the Smokies the most visited National Park in the United States.

Special thanks to Jon Guymon for the use of the picture that was taken in Cades Cove.

#### FINANCIAL INFORMATION

#### **Internal Controls**

County management is responsible for establishing and maintaining an internal control structure designed to ensure the assets of the County are protected from loss, theft or misuse and to ensure adequate accounting data are compiled to allow for the preparation of the financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the County is responsible for adequate internal control structures in place to ensure compliance with applicable laws and regulations related to those programs. The internal control structure is subject to periodic evaluation by management.

#### **Budgetary Controls**

In addition, the County maintains intensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual budget appropriated by the County Commission. Activities of the general fund, selected special revenue funds and the debt service fund are included in the budget. Project length budgets (as well as an annual budget for some projects) are adopted for the capital projects funds. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) for the County is at the major category level within divisions of departments. The major categories are: Personal Services, Employee Benefits, Contracted Services, Supplies and Materials, Other Charges, Debt Service and Capital Outlay.

As demonstrated in the statements and schedules included in the financial section of this report, the County continues to meet its responsibility for sound financial management.

#### Cash Management Policies and Practices

The County has a formal investment policy. Investment decisions are made by an investment committee in consultation with the Knox County Trustee. Investment options, policies, and practices defined in the policy are based on the required liquidity of the available funds. Investments for operating needs, capital needs, and any surplus funds each have different levels of risk tolerance. Operating funds, whose primary objective is the preservation of principal, have the lowest level of risk tolerance and are therefore invested in highly liquid, low-risk instruments. Capital funds, whose primary objective is the preservation of principal and sufficient liquidity to meet capital funding needs, are subject to some volatility in risk tolerance depending on when payment for projects is due. Surplus funds, whose primary objective is to provide income for future use, have the highest level of risk tolerance in order to obtain additional income. Regardless of the type of funds invested, all investments are made in accordance with state statutes.

Board of County Commissioners and the Citizens of Knox County, Tennessee Page xii

It is the County's policy to minimize credit and market risk while maintaining a competitive yield on its portfolio. Accordingly, the County's and the Board's deposits were either insured by federal depository insurance or collateralized. The investments held by the County at June 30, 2010, excluding the portion invested in the State Treasurer's investment pool and investments of the Pension Trust funds, consisted of securities of the U.S. Government or its agencies.

Cash temporarily idle during the year was invested in an investment sweep account, certificates of deposit, and obligations of the U.S. Government, corporate bonds, and the State of Tennessee Local Government Investment Pool. The majority of interest earnings are transferred to the County's General Fund.

#### Pension Trust Operations/Employee Retirement Benefits

The employees of the County and the Board participate in a variety of retirement plans. The majority participate in a defined contribution plan (County DC Plan). Those not participating in the defined contribution plan participate in the County's or the Board's respective defined benefit plans or the Tennessee Consolidated Retirement System. Both the County's and the Board's defined benefit plans are closed to new members. Participation in one of these plans for eligible employees is mandatory and a condition of employment. Employees are given the option to voluntarily participate in the Medical Retirement Plan (a defined contribution plan) and employees who are eligible (based on years of service) to participate in the Voluntary 457 Plan may choose to participate. The participants in the *Medical Retirement Plan* include a number of retirees, who are allowed to remain in the plan while paying 100% of the related premium. The premiums are at the same amount as established for current employees. In 2009, the County implemented the provisions of Governmental Accounting Standards Board Statement No. 45. The resulting liability of \$367,156, representing the implicit subsidy of retirees' healthcare premiums, is reported in the 2010 Statement of Net Assets. In 2008 a new defined benefit plan, the Uniformed Officers Pension Plan, was established pursuant to the approval by Knox County electorate for the benefit of sworn officers of the Sheriff's Department.

The defined contribution plans offer participants a variety of investment options depending on their sensitivity to risk in their personal portfolio. Plan benefits depend solely on amounts contributed to the respective plans plus investment earnings. The operations of the pension plans are recorded as pension trust funds in the County's reporting entity.

#### Risk Management

The County has a comprehensive risk management and self-insurance program for all areas of risk management including claims for employee health insurance, worker's compensation insurance and other claims and judgments against the County. The county has accounted for these activities in two internal service funds where resources are accumulated to meet potential losses. As part of the overall risk management strategy, the County has developed and implemented discounts for employee health insurance for wellness initiatives and for tobacco cessation. These efforts and others position the County to better address the complex healthcare market while maintaining competitive benefits for employees. An analysis of these types of claims over the years has enabled the County to implement specific safety measures to reduce the risk of loss.

#### OTHER INFORMATION

#### Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Knox County Government for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This was the fourteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our present report continues to meet the program's requirements and we are submitting it to the GFOA to determine eligibility for another certificate.

The County has also received, for the fifteenth consecutive time, the GFOA Award for Distinguished Budget Presentation for its 2011 Annual Operating Budget. In qualifying for the award, the County's budget document was judged to be proficient in several categories including policy documentation, financial planning and organization.

#### Acknowledgments

The preparation of the CAFR was made possible by the dedicated service of the Department of Finance. Those involved have our sincere appreciation for the individual and collective contributions made in the preparation of the report. It is especially important to recognize the additional efforts required to meet an aggressive reporting schedule. The efforts of Ann Acuff, Jack Blackburn, Chris Caldwell, Steve Campbell, Jeff Clark, Dora Compton, Susan Corlew, Patti Galvan-Balzer, Scott Hill, Jason Lay, Peter Lin, John Troyer and Melanie Wilck all went above and beyond the call of duty to design and generate this report. Thank you very much for your professional dedication in this effort. Thank you to the entire Department of Finance for your efforts to "get the job done well," every day. You serve the citizens of Knox County very well.

Recognition and appreciation are also extended to the County Commission and the Board of Education for their continued dedication in planning and conducting the operations of the County and the Board in a financially responsible and progressive manner.

Sincerely,

Jolan M. Troyer, CPA Senior Director of Finance

Jehn M. Troger

#### **Independent Auditor's Report**

Knox County Mayor and the County Commissioners of Knox County, Tennessee:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Knox County, Tennessee (the County), as of and for the year ended June 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the Student Activity Funds agency fund of the Knox County Board of Education, a discretely presented component unit of Knox County, Tennessee, as of and for the year ended June 30, 2010. The fund financial statements were audited by other auditors whose report thereon dated November 15, 2010, has been furnished to us, and our opinion, insofar as it relates to the amounts included for the entity, is based on the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Knox County, Tennessee, as of June 30, 2010, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note IV (H), the County implemented Governmental Accounting Standards Board Statement (GASB) No. 53, "Accounting and Financial Reporting for Derivative Instruments", effective July 1, 2009.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2010 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting

and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the required supplemental information sections are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, supplemental section, component unit – board of education section and the statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplemental section and component unit – board of education section information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

November 23, 2010

#### **Management's Discussion and Analysis**

As management of the Knox County Government, we offer readers of the Knox County Government's financial statements this narrative overview and analysis of the financial activities of the Knox County Government for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i-xiii of this report. All amounts, unless otherwise indicated, are expressed in dollars.

#### **Financial Highlights**

- The assets of the Knox County Primary Government Governmental Activities exceeded its liabilities at the close of the most recent fiscal year by \$85,114,255 (net assets), which compares to \$116,510,195 (restated due to the implementation of GASB Statement No. 53—see Note (A)) in 2009. The assets of the Knox County Government Total Reporting Unit exceeded its liabilities at the close of the most recent fiscal year by \$459,729,242 (net assets), which compares to \$480,776,080 (as restated) in 2009. However, most of the County's net assets balance is invested in capital assets, which will be used in the County's ongoing operations. Conversely, the unrestricted net assets amounts of \$234,271,029 (deficit) and \$60,078,086 (surplus) for the Primary Government Governmental Activities and Total Reporting Unit, respectively, represent amounts that will be needed to meet the government's obligations to citizens and creditors and that will be financed with future tax revenues, or amounts already available. This is compared to restated (see Note (A)) prior year amounts of \$220,325,864 (deficit) and \$57,335,107 (surplus), respectively.
- Of the Primary Government's \$86,251,123 net assets balance, \$292,183,224 was invested in Capital Assets (net of related debt), \$832,590 was invested in capital assets, \$24,978,733 was restricted for debt service, \$0 was restricted for capital projects, and \$2,223,327 was restricted for other purposes. The difference of \$233,966,751 (unrestricted net assets) is reported as a deficit, an increase of \$13,927,668 over the prior year unrestricted deficit (restated) of \$220,039,083. The reported deficit comes from the process by which the County issues debt on behalf of the Knox County Board of Education (the Board). The County issues general obligation debt for the Board, the proceeds of which are used for School projects resulting in Board assets. The Board then makes debt service payments to the County from future budgets. Since the debt is issued in the County's legal name, the debt is reported as a liability of the Primary Government. The unrestricted net deficit demonstrates the expectation of the Board to fund its portion of the total debt in future years.
- The Primary Government's total net assets decreased by \$31,439,562, representing 10.7% of the \$293,753,631 expenses of the Primary Government. This compares to the 2009 decrease of \$16,708,686, or 5.9% of 2009 expenses totaling \$283,898,708. The primary reason for the decrease in net assets for both years is the amount borrowed on behalf of other entities. In 2010, the County issued bonds with a face value of \$20,550,000, of which \$15,000,000 was borrowed on behalf of the Board. That amount (net of the allocated effects of issuance costs and debt premium, totaling \$14,822,428) was remitted to the Board, thus reducing the Primary Government's net assets, as the entire portion of the debt related to the amounts borrowed on behalf of the Board is included with Primary Government debt. This transaction represented a significant portion of the 2010 decrease in net assets, since the amounts borrowed for and remitted to the Board are classified as expenses in the Primary Government

operations. In addition, the County incurred capital project outlays for a major renovation/addition project for the Board's Powell Middle School. The project was completed and the related capital asset totaling \$14,763,666 was, essentially, donated to the Board, and was accounted for as a payment to the Board from the Primary Government. An additional reason for the decrease in net assets of the Primary Government was the implementation of GASB Statement No. 53, which resulted in the recognition of the 2010 \$3,031,442 decrease in fair value of the County's interest rate swap investment derivative as a reduction of investment revenues. The combined effect of these three factors totaled \$32,617,536, which exceeds the \$31,439,562 decrease in net assets by \$1,177,974. Therefore, if these three items were excluded from the results of operations, net assets would have increased. As the individual funds are budgeted to "break even" prior to depreciation expense, these results demonstrate how closely matched revenues and expenses were -- as the County continued its long record of operating within the approved budget. The Total Reporting Unit's total net assets decreased by \$21,046,838, or 2.7% of 2010 expenses of \$780,624,451. This compares to the 2009 decrease of \$24,385,643, or 3.2% of 2009 expenses totaling \$761,233,701. These amounts include charges for depreciation. Included in the government-wide expenses is depreciation expense of \$24.4 million in 2010 and \$24.6 million in 2009 for the County, and \$11.7 million in 2010 and \$10.1 million in 2009 for the Board of Education. Without depreciation expense (a non-budgeted item), the Total Reporting Unit would have realized an increase in net assets of \$15.1 million for 2010 and \$10.3 million for 2009.

- As of the close of the current fiscal year, the Knox County Government's governmental funds reported combined ending fund balances of \$95,061,366, a decrease of \$16,003,528 in comparison with the prior year balances of \$111,064,894. Various factors contributed to the decrease. Each of the Primary Government's major funds experienced a decrease in fund balance. Both the General Fund and the Debt Service Fund planned the use of a portion of fund balance to be applied to operations of the 2010 fiscal year as a means to continue to provide needed services in this current difficult economic environment, while not burdening taxpayers with increases in tax rates. Although each of these funds did experience a reduction in fund balance (\$1,479,860 and \$2,003,541 for General and Debt Service, respectively), each actually expended less than budgeted (positive variances from the budget of \$5,289,479 and \$9,014,358 for the General Fund and Debt Service Fund, respectively.) Another reason for the reduction was the planned spending down of funds for capital purposes, resulting in the reduction of fund balance in the Capital Projects Public Improvement Fund of \$9,834,011. In addition, the Constitutional Officers Special Revenue Fund experienced a net reduction of fund balances of \$1,444,644, which is comparable to the prior year reduction of \$1,574,162. Of the total fund balance amount, \$64,164,916 (67%) is available for spending at the government's discretion (unreserved fund balance). This is a decrease of \$23,868,540 from the prior year total unreserved fund balance of \$88,033,456 (79% of prior year total fund balance). Unreserved and undesignated fund balance for the County's governmental funds decreased from \$84,539,882 to \$62,787,395, a decrease of \$21,752,487, primarily as a result of the aforementioned reductions in total fund balances combined with an increase in amounts reserved for encumbrances for the Public Improvement Fund of \$6,584,314 for ongoing projects (2010 balance of \$9,645,621 compared to 2009 balance of \$3,061,307.)
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$43,415,759 (29% of total General Fund expenditures of \$149,537,519), compared to \$44,197,261 (30% of last year's expenditures of \$148,389,576). The undesignated portion of

the County's General Fund increased to \$42,041,215, or 28.1% of General Fund expenditures, compared to the prior year ending balance of \$41,344,844, or 27.9% of General Fund expenditures. The \$42 million unreserved, undesignated General Fund balance is greater than the amount that was projected upon adoption of the General Fund budget by \$4.2 million, and represents the second highest amount of undesignated balance ever reported by the County. These measures of fund balance demonstrate the County's continued fiscal discipline and show that the County has resources available to meet unexpected emergencies, temporary cash needs and other uncertainties our County faces in the normal course of everyday operations.

- The Knox County Government's total bonded debt decreased by 2.1 percent, or \$13,150,467, less than the prior year total of \$627,121,402. This decrease was in accordance with the County's adopted Capital Improvement Plan. Of the current year total of \$613,970,935, \$363,953,720 pertains to County general government activities and \$250,017,215 pertains to the Knox County Schools Component Unit. The key factors in this decrease were: (1) The issuance of \$20.55 million in bonds (\$1 million to fund Primary Government capital improvements, \$4.55 million to refund existing bonded debt, and \$15 million for Knox County Schools capital improvements), less (2) Principal paid of \$33.7 million.
- The County Property Tax Rate was \$2.36 for the fiscal year. This is another indication of the County's commitment to fiscal conservatism. Subsequent to the end of the 2009 fiscal year, the County completed a reappraisal that increased the total assessed valuation of County property. As a result, the tax rate for 2010 was decreased \$0.33 from \$2.69 to \$2.36 to achieve revenue neutrality.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Knox County Government's basic financial statements. The Knox County Government's basic financial statements comprise of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Knox County Government's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all the Knox County Government's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Knox County Government is either improving or deteriorating. The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Knox County Government that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Knox County Government include general government, public safety, highways and streets, sanitation, economic development, and culture and recreation. Knox County Government reports business-type activities for the operations of the Three Ridges Golf Course enterprise fund.

The government-wide financial statements include the Knox County Government itself (known as the primary government), and legally separate entities for which Knox County Government is financially accountable (component units): the school district – the Board of Education (The Board), a legally separate Emergency Communications District, and the Knox County Railroad Authority. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The Emergency Communications District issues separate financial statements. The Board of Education and the Railroad Authority do not issue separate financial statements. The government-wide financial statements can be found on pages 17 and 18 of this report.

**Fund financial statements**. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Knox County Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Knox County Government can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliations to facilitate this comparison between governmental funds and governmental activities.

The Knox County Government maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheets and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Constitutional Officers Special Revenue Fund, Capital Projects Public Improvement Fund and the Debt Service Fund, all of which are considered to be major funds. Data from the other nine governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Knox County Government adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund for information in the Required Supplemental Information section of the report. For a more detailed demonstration of budgetary compliance, the County also issues a separate Budget Report to the Citizenry, which is available online at <a href="http://www.knoxcounty.org/finance/budget.php">http://www.knoxcounty.org/finance/budget.php</a>.

The basic governmental fund financial statements can be found on pages 19-22 of this report.

**Proprietary funds**. There are two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Knox County Government established an enterprise fund in 2009 to account for the operations of the Three Ridges Golf Course. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Knox County Government's various functions. Knox County Government uses internal service funds to account for its fleet service operations, mailroom operations, employee benefits activities, retirement office operations, self-insurance activities, central maintenance operations, technical support operations, and fleet capital leasing activities. Because these services benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The nine internal service funds are combined into a single, aggregated presentation in the basic proprietary fund financial statements, along with the presentation of the Three Ridges Golf Course enterprise fund. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 23-25 of this report.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Knox County Government's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 26 and 27 of this report.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-103 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Knox County Government's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 104-108 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented on pages 120-150. Combining and individual fund statements for internal service funds can be found on pages 155-175 of this report.

#### **Government-wide Financial Analysis**

Net assets may serve over time as a useful indicator of a government's financial position. The Total Reporting Unit assets exceeded liabilities by \$459,729,242 at the close of the most recent fiscal year, which compares to \$480,776,080 (restated) from last year. The Primary Government's Governmental Activities net assets totaled \$85,114,255 which compares to last year's net assets of \$116,510,195 (restated). If depreciation expense (a non-budgeted item) were excluded from the results of operations, the Total Reporting Unit and the Primary Government Governmental Activities would have had an increase in net assets of \$15.1 and \$7.0 million, respectively. The actual results are in line with the County's expectations.

Knox County, Tennessee
Net Assets - Primary Government -- Governmental Activities

Tuna 30

	June 30,				
		2010	2009		
Current and Other Assets	\$	305,777,316 \$	308,522,322

Other Liabilities		239,686,773	212,203,668		
Total Liabilities		865,537,476	852,296,603		
Net Assets: Invested in Capital Assets, net of					
Related Debt (See Note A)		292,183,224	298,546,888		
Restricted		27,202,060	38,289,171		
Unrestricted (Deficit) (See Note A)		(234,271,029)	(220,325,864)		
Total Net Assets	\$	85,114,255 \$	116,510,195		

By far the largest portion of the Knox County Government's net assets reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any outstanding related debt used to acquire those assets. The Knox County Government uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Knox County Government's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### **KNOX COUNTY GOVERNMENT'S Net Assets**

An additional portion of the Knox County Primary Government's governmental activities net assets represents resources that are subject to external restriction on how they may be used. These include restricted for Debt Service \$24,978,733 (last year \$26,982,274) Capital Projects \$0 (last year \$8,364,400) and Other Purposes \$2,223,327 (last year \$2,942,497). The remaining balance of unrestricted net assets deficit of \$234,271,029 reflects a reduction of \$13,945,165 compared to the prior year restated deficit of \$220,325,864. The reduction results primarily from the payment to the Board component unit of the Powell Middle School capital asset totaling \$14,763,666 plus the effects of the implementation of GASB Statement No. 53, which resulted in a reduction of net assets related to the decreased in the fair value of the interest rate swap investment derivative instrument of \$3,031,442, partially offset by the positive differences between the amounts expected to be realized from the General Fund operations for the year compared to its adopted budget, which were realized from a combination of revenues exceeding expectations combined with prudent management of expenditures. These factors are described in more detail in the following discussion of the results of the governmental funds. The unrestricted net assets balance represents funds that would normally be available to be used to meet the government's ongoing obligations to citizens and creditors. The primary reason for the deficit balance is due to the County's recognition of long-term debt issued on behalf of the Knox County Board of Education. As the Board and the County Commission identify school capital needs that require funding from bonds (through the long-term capital planning process), the County issues bonds on behalf of the Board. Repayment of the bonds is funded through the Board's operating budget each year. Since the County is the legal entity issuing the bonds, the bonds are considered a liability of the County, while the associated capital assets are reported with the Board. The payments of the debt related to the bonds issued on behalf of the School Board are made from the Board's budgeted funding each year. At June 30, 2010, the amount of bonds issued by the County on behalf of the School Board still outstanding was \$250,017,215 (excluding unamortized premium) compared to prior year of \$248,065,935. If this liability were shown with the Board's amounts to match the capital assets, the County would have had positive unrestricted net assets of its governmental activities of \$15,746,186 in 2010 and \$27,740,071 in 2009.

At the end of the current fiscal year, the Knox County Government is able to report positive balances in all three categories of total net assets -- for the Total Reporting Unit, for the Primary Government and for each of its separate component units. The same situation held true for the prior fiscal year. The Total Reporting Unit's net assets decreased by \$21,046,838 during the current fiscal year, compared to \$24,385,643 for the prior year. The primary reason for the total decrease was the \$36.1 million for depreciation (\$24.4 million in Primary Governmental Activities and \$11.7 million related to the School Board's operations). The County finished very much in line with expectations. Depreciation is a non-cash expense that is not recorded at the individual governmental fund level, and is a non-budgeted item.

Governmental activities. Governmental activities decreased the Knox County Primary Government's net assets by \$31,395,940. Included in this amount are payments totaling \$14,822,428 to the Board of Education Component Unit for amounts borrowed by the County on behalf of the Board. In addition, the Primary Government completed a construction project for a major renovation/addition for Powell Middle School, and donated to the completed facility to the Board (accounted for as a payment from the Primary Government to the Board.) Also included in the total was \$3,031,442 reduction to investment revenue due to the implementation of GASB Statement No. 53, which resulted in the 2010 reduction in the fair value of the interest rate swap

investment derivative instrument as a reduction of net assets. If the effects of those reductions were excluded from the calculation of the change in net assets, governmental activities would have increased net assets by \$1,177,974. The County's intent is that operations break even before depreciation. For 2010, if the effects of the 2010 depreciation expense of \$24,426,473 were removed from the change in net assets, coupled with the factors described above, governmental activities would have recognized an increase of more than \$25 million, largely attributable to the positive variances experienced by the Primary Government's General and Debt Service fund expenditures compared to the amounts budgeted for the year of nearly \$15 million. In 2009, the change in net assets consisted of a \$24,385,643 decrease, which compared closely to the depreciation expense for the Primary Government Governmental Activities of \$24,543,311.

The Knox County School Board activity increased the County's total net assets by \$8,317,134. This increase is primarily due to the planned spending down of fund balance in the General Purpose School Fund, totaling \$2.1 million, offset by depreciation, a non-budgeted item, of \$11.7 million.

The Total Reporting Unit recorded a decrease in net assets of \$21,046,838, which is 2.7% of Total Expenses of \$780,624,451. As previously noted, these results include the effects of depreciation expense for the Total Reporting Unit, which included \$24.4 million for the Primary Government and \$11.7 million for the Board, for a total of \$36.1 million depreciation expense applicable to governmental activities of the Primary Government and the Board. Excluding these amounts, the Total Reporting Unit would have reported an increase in net assets of \$15.1 million. As the County's intent at the start of the year was to "break even" before depreciation, these results confirm the County has again demonstrated its financial discipline in another successful year.

#### **KNOX COUNTY GOVERNMENT'S Changes in Net Assets**

Revenues included a decrease of local taxes of \$6.1 million compared to the prior year. Once again, Education was the largest single activity by far for the fiscal year. The payment to the Board from the Primary Government increased over the amount for the prior year, which included payment to the Board for borrowing for capital purposes of \$14.8 million combined with the payment to the Board for the capital asset constructed for and donated to the Board totaling an additional \$14.8 million. Other increases in expenses closely paralleled inflation and growth in the demand for services.

#### Knox County's Total Reporting Unit

	2010	2009
Finance and Administration	\$ 46,019,619	\$ 45,756,935
Administration of Justice	15,691,782	15,651,510
Public Safety	74,436,026	71,715,147
Public Health and Welfare	38,623,222	38,630,559
Social and Cultural Services	22,555,747	22,116,126
Other General Government	17,362,556	21,514,449
Engineering & Public Works	24,009,373	23,630,899
Debt Service	25,524,229	30,093,010
Education	509,748,433	485,202,432
Emergency Communications	6,653,464	6,922,634
Total	\$ 780,624,451	\$ 761,233,701

The Total Reporting Unit expenses increased by \$19,390,750. The Education category increased by \$24.5 million, primarily due to the aforementioned \$29.6 million in payments by the Primary Government to the Board, with the effects of other planned reductions in spending for education purposes also reflected. Additionally, expenses for Public Safety increased by \$2.7 million. If the expenses for Education and Public Safety (totaling \$584,184,459 and \$556,917,579 for 2010 and 2009, respectively) were excluded from the above totals, the expense totals for the Total Reporting Unit would have decreased from \$204,316,122 in 2009 to \$196,439,992 in 2010, a reduction of \$7,876,130, or 3.9% of the 2009 totals. Expenses in these remaining other categories were generally comparable to the prior year, with the notable reduction in debt service expenses. This was attributable largely to savings in interest due to the current low interest rate environment, resulting in savings in variable-rate debt interest payments.

#### Financial Analysis of the Government's Funds

As noted earlier, the Knox County Government uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Knox County Government's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Knox County Government's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net

resources available for spending at the end of the fiscal year and to help ensure future stability of governmental operations.

As of the end of the current fiscal year, the Knox County Government's governmental funds reported combined ending fund balances of \$95,061,366, a decrease of \$16,003,528 in comparison with the prior year total of \$111,064,894. The fund balances include amounts: 1) to liquidate contracts and purchase orders of the prior period and specifically reserved items (\$30,896,450), 2) to be used for specific designated items (\$1,377,521), 3) to be used in conjunction with special revenue purposes (\$5,064,906), or 4) capital projects (\$1,590,873) or 5) Debt Service (\$15,753,733). All of these amounts are in line with the County's expectations and intentions. The County continues to show its financial strength and stability.

The General Fund is the chief operating fund of the Knox County Government. At the end of the current fiscal year, unreserved, undesignated fund balance of the General Fund was \$42,041,215 compared to \$41,344,844 last year (an increase of \$0.7 million), while total fund balance decreased to \$51,797,913 compared to last year's \$53,277,773 (reflecting the planned reduction of funds specifically reserved or designated). As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved and undesignated fund balance represents 28.1% of total General Fund expenditures, compared to 27.9% last year. The actual unreserved and undesignated fund balance as a percentage of actual expenditures (28.1%) compares favorably to the budgeted balance as a percentage of budgeted expenditures (21.9%). Total fund balance represents 34.6% of actual expenditures compared to 35.9% last year. These amounts indicate that the County maintained the strong relationship between the fund balances and the size of its budget and is continuing to hold steady in its financial stability in spite of challenging economic times.

The total fund balance of the County's General Fund decreased by \$1,479,860 during 2010, compared to last year's \$6,095,351 decrease. The General Fund's original budget planned for a net decrease in fund balance for the year of \$3,538,012. The actual undesignated fund balance was \$4,234,383 greater than the original budgeted amount of \$37,806,832. Key factors in the positive outcomes for the General Fund are as follows:

- Revenues exceeded budget in three of nine categories; total revenues of \$153,576,072 totaled 101.6% of the total budget of \$151,140,564. These results were achieved in a year of a difficult economy. Although local tax revenues, which include property and sales taxes (among others), exceeded the budget by \$3,297,063, actual interest revenues realized were less than the budget due to lower than expected interest rates, causing a shortfall in the other local revenues category of \$2,469,587.
- The General Fund Reserved Fund Balances decreased by \$698,358 to \$8,382,154, while Designated Fund Balances decreased by \$1,477,873. The primary reason for the decrease in reserved fund balance was due to the decrease in the amounts reserved for prepaid items and encumbrances. The 2010 designated fund balance decreased due to the reduction of amounts designated at the end of 2009 for certain employee compensation amounts to be paid in 2010. The General Fund undesignated fund balance increased by \$696,371 to \$42,041,215 (representing the second highest amount of undesignated balance ever reported by the County), compared to the originally budgeted decrease to \$37,806,832 (a planned decrease of \$3,538,012).

• The General Fund departments, in their normal conservative pattern, showed their fiscal responsibility by turning back unspent budget of \$5,289,479 (3.4% of the final allowed budget of \$154,826,998) for the fiscal year (compared to last year's results of \$5,607,103, or 3.6% of the budget of \$153,996,679).

The Debt Service Fund has a total fund balance of \$24,978,733, which compares to \$26,982,274 last year. The undesignated portion totaled \$15,753,733 and \$17,757,274 in 2010 and 2009, respectively. The net decrease in fund balance during the current year was \$2,003,541, compared to a decrease of \$3,441,613 last year. The undesignated portion of the Debt Service Fund decreased in the current year by \$2,003,541, compared to a decrease of \$6,626,613 last year. The County had planned for a decrease in the Debt Service Fund, and had budgeted for \$9,222,323 to be applied to the current year budget. As the current year result of operations was an actual decrease in fund balance of \$2,003,541, the fund experienced a positive variance of \$7,218,782 of actual results compared to the adopted budget. This resulted from the significant savings from conservatively budgeting for its expenses that the County experienced from its variable rate debt, the County's practice of issuing debt as close to the time of the anticipated cash needs as practicable in order to minimize total interest costs, combined with the realization of actual revenues which were less than that of budgeted estimates by \$1,795,576, or 3.0%, primarily due to lower interest revenues realized. The County plans to continue its conservative financial planning.

The Public Improvement Capital Projects Fund experienced a net reduction in fund balances of \$9,834,011 in 2010, compared to an increase in fund balance of \$41,642,424 in 2009. As a result, fund balance at June 30, 2010 totaling \$5,595,251 declined from the June 30, 2009 balance of \$15,429,262. This result represents the planned current year spending down of revenues received in the prior year for long-term projects. The County's practice is to issue debt for capital purposes generally on an annual basis, with the intent that debt proceeds be received as close as practicable to the timing of the planned expenditures. This is done to help keep interest charges to the minimum level needed.

The Constitutional Officers Special Revenue Fund experienced a decrease in the fund balance in the current year of \$1,444,644, resulting in fund balance at June 30, 2010 totaling \$2,387,038 compared to the June 30, 2009 total of \$3,831,682. The current year reduction is comparable to the prior year reduction of \$1,574,162. This fund is used to account for the operations of various County offices that receive fees for providing various services to the public. A portion of these fees are used to pay for certain operating expenses, and the remaining fees are transferred to the County General Fund. Total amounts transferred to the General Fund in 2010 of \$6,854,002, an increase of \$315,089 from the prior year total of \$6,538,913. These results were in line with expectations, as there were no major changes to the operations of these offices during 2010 causing changes in results of operations.

**Proprietary funds**. The Knox County Government's proprietary fund statements provide underlying detail information included in the government-wide financial statements.

Unrestricted net assets of the Internal Service Funds at the end of the year amounted to \$8,083,827 compared to \$8,913,997 at the end of 2009. The decrease of \$830,170 was primarily due to the increases in self-insurance claims activity. The Internal Service Funds are used to accumulate and distribute costs as a planning tool, and are expected to break even over the long run. The total change in net assets for all Internal Service Funds was \$1,045,694 (deficit) (1.6%)

of total charges for services of \$64,670,966), compared to the prior year 3.9% (deficit change in net assets). The intent of these funds is to "break even; however, the current year included a planned draw of the balances in the Capital Leasing Fund, which caused a larger than normal difference between revenues and expenses for these funds.

#### **General Fund Budgetary Highlights**

Differences between the original budget and the final amended budget were within the normal course of County business and totaled a net \$5,528,417 increase in the total budgeted-for expenditures. Included in the increase were normal carryover appropriations for projects not completed during the previous fiscal year (\$848,837) and appropriations for additional expenditures related to numerous additional revenues received for specific purposes during the year that were in addition to the revenues estimated in the original budget.

The County continued to show the results of conservative budgeting and careful stewardship of approved spending. These qualities were again demonstrated by positive actual results, including the realization of actual revenues exceeding budgetary estimates by 1.6%, and actual expenditures less than budgetary provisions by \$5,289,479. Overall, the General Fund Balance decreased by \$1,479,860, which is \$5,990,845 less than the budgeted decrease of \$7,470,705. As a result of these positive results compared to budget for the year, the County has designated \$1,374,544 of the fund balance to future uses. The undesignated portion of the County's General Fund Balance increased by \$696,371, compared to the planned decrease of \$3,538,012. Total unreserved fund balance (designated plus undesignated) totaled \$43,415,759, compared to the prior year total of \$44,197,261, a decrease of \$781,502. These results reflect the careful and appropriate budgeting of revenues and prudent management of expenses in a difficult economic environment.

#### **Capital Asset and Debt Administration**

Capital assets. The Knox County Government Total Reporting Unit reported a total balance of capital assets (net of accumulated depreciation) as of June 30, 2010, of \$980,071,242, which compares to the prior year total of \$979,674,432. This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The net increase in the Knox County Government's investment in capital assets for the current fiscal year was \$396,810 (0.04 percent), which reflects the capital additions for the year in amounts approximating depreciation.

Spending for major capital asset additions during the current fiscal year included the following: progress on the Family Investment Center, Legacy Park Foundation land acquisition and other land improvements, Health Department improvements, completion of the Powell Middle School, various school upgrades, numerous road projects, and various other projects.

The County Primary Government's Governmental Activities investment in capital assets for its governmental activities as of June 30, 2010 amounts to \$945,399,609 less accumulated depreciation of \$300,525,194, leaving a net book value of \$644,874,415. The prior year net book value totaled \$660,284,476. The decrease of \$15,410,061 results primarily from the planned completion of the Powell Middle School project totaling \$14,763,666 and the "payment" of the related capital asset to the Board, which will operate and maintain the facility. Investment in capital assets includes land and land improvements, buildings, equipment, infrastructure, and construction in progress. Infrastructure assets are items that are normally immovable and of

value only to the County, such as roads and streets, bridges, sidewalks, lighting systems, and similar items.

Additional information on the Knox County Government's capital assets can be found in note III.C on pages 50-51 of this report and pages 198-200.

**Long-term debt.** At the end of the current fiscal year, the Knox County Government had total bonded debt outstanding of \$613,970,935, compared to \$627,121,402 at the end of 2009. All of the bonded debt was backed by the full faith and credit of the County government. \$250,017,215 of the total is outstanding debt which the government issued on behalf of the Board for school purposes. The remaining \$363,953,720 of the Knox County Government's debt represents bonds issued solely for general government purposes.

#### **KNOX COUNTY GOVERNMENT'S Bonded Debt Changes during FY 2010:**

	Primary		
Rollforward of Debt:	Government	Board	Total
Beginning Balance	\$ 379,055,467	\$ 248,065,935	\$ 627,121,402
Principal Paid	(20,651,747)	(13,048,720)	(33,700,467)
Issued Amounts	5,550,000	15,000,000	20,550,000
Ending Amount – Bonds	\$363,953,720	\$250,017,215	\$613,970,935

Knox County's total bonded debt decreased by \$13,150,467 (2.1 percent) during the current fiscal year. The key factor in this decrease was the issuance in fiscal 2010 of \$20.55 million in general obligation bonds, of which \$15 million was issued on behalf of the Knox County Board of Education, combined with debt repayment of over \$33 million.

During the 2009 fiscal year, the Knox County Government received an increase in its bond rating to "AA+" from "AA" from Standard & Poor's, the highest rating in County history. During the 2010 year, the County also received an "Aa1" rating from Moody's for general obligation debt, an increase from the previous rating of "Aa2." This continued confidence from the rating agencies confirms the County's commitment to financial integrity, stability and strength.

State statutes set no limit for the amount of general obligation debt a governmental entity may issue. Current bonded debt outstanding for the County Government is \$613,970,935. This translates to approximately \$1,361 per capita using the 2010 estimated population. This compares to \$1,400 per capita last year.

Additional information on the Knox County's long-term debt can be found in the Notes to the Financial Statements of this report on pages 64-75.

#### **Economic Factors and Next Year's Budgets and Rates**

• The unemployment rate for Knox County for June 2010 was 7.8% (subsequently lower at 7.1% for September 2010), which is a decrease from the rate of 8.5% percent a year earlier. This compares favorably to the state's average rate of 10.0% percent for June 2010, and 11.1% for June 2009. The national unemployment averages were 9.5% for June 2010 and 9.5% for June 2009. The Knoxville Metropolitan Statistical Area (MSA), which includes

Knox County, has the lowest unemployment rate of any MSA in Tennessee. This data was taken from the Tennessee Department of Labor and Workforce Development.

- Knox County has been leading the State in economic development and employment for the past several years. While Knox County is currently experiencing the effects of the current global recession, it is well-positioned to weather this economic storm. The current administration is committed to inspire economic activity with investments and jobs.
- The Knoxville leading index has traditionally sustained a positive year-over-year percent change indicating economic activity is at a higher level relative to last year. This year is a time when most areas and jurisdictions are experiencing a contraction in economic activity, and Knox County is not immune to the global recession. Knox County is expected to continue to hold its own in the near term, while the longer term has a much more positive outlook.

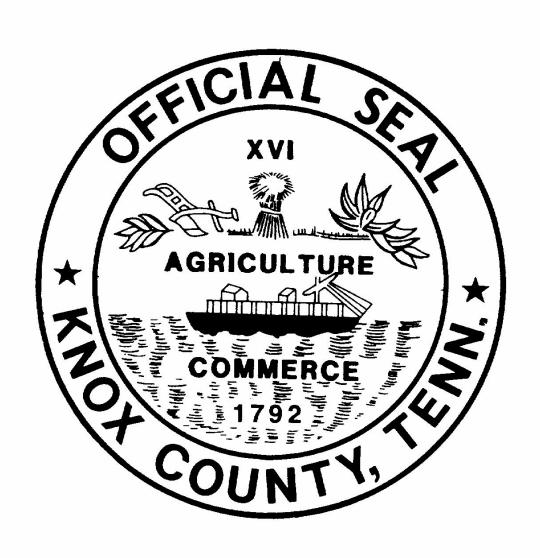

#### **Requests for Information**

This financial report is designed to provide a general overview of the Knox County Government's finances for all those with an interest in the government's finances. The County's CAFR and additional information regarding the County may be located online at: <a href="http://www.knoxcounty.org/index.php">http://www.knoxcounty.org/index.php</a>. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Knox County Government Department of Finance Suite 630 City/County Building 400 Main Street Knoxville, TN 37902

Note (A): Effective in fiscal 2010, the County adopted the provisions of GASB Statement No. 53 *Accounting and Reporting for Derivative Instruments*, the provisions of which have been applied to the County's interest rate swap arrangements. In accordance with the requirements of the Statement, the County evaluated its derivatives to determine whether they constituted hedging derivatives or investment derivatives, as defined by the Statement. One of the County's interest rate swaps was determined to be an investment derivative at the beginning and at the end of fiscal year 2010. The provisions of the Statement require that the change in fair value of an investment derivative be reflected in the annual Statement of Activities, and that the financial statements be retroactively restated to reflect the change in fair value for the earliest period reported, if practicable. As a result, the total of the net assets of the Primary Government-Governmental Activities (\$116,510,195) has been restated to reflect the reduction of \$3,944,017 from the total as previously reported (\$120,454,212).

Invested in Capital Assets, Net of Related Debt (see note below)	292,183,224	-	292,183,224	-	-	4,189,162	46,355,171
Restricted for:							
Debt Service	24,978,733	-	24,978,733	-	-	-	24,978,733
Capital Projects	-	-	=	11,810,950	=	=	11,810,950
Other Purposes	2,223,327	-	2,223,327	1,310,395	-	-	3,533,722
Net Assets - Unrestricted (see note below)	(234,271,029)	304,278	(233,966,751)	35,440,899	13,178	8,573,545	60,078,086
Total Net Assets	\$ 85,114,255	\$ 1,136,868	\$ 86,251,123	\$ 360,702,234	\$ 13,178	\$ 12,762,707	\$ 459,729,242

The sum of the rows that report the net asset categories for Invested in Capital Assets, Net of Related Debt, and Net Assets-Unrestricted applicable to the primary government and the component units do not equal the related amounts shown in the Total Reporting Entity column. The difference of \$250,017,215 results because the debt incurred by the Primary Government on behalf of the Board of Education Component Unit reduces the unrestricted net assets of the Primary Government, whereas the related assets are reported in the Board Component Unit totals. For the Total Reporting Unit, the \$250,017,215 is deducted from amount shown for Invested in Capital Assets, Net of Related Debt to show the matching of the total assets with the total debt.

#### Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the year ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:  Net Change in Fund Balances - Total Governmental Funds  Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$24,093,593) exceeded capital outlays (\$23,662,722) in the current period.  Certain revenues will be collected after year-end but not within the period considered available to pay current period expenditures. Therefore, these amounts were recognized as revenues in the statement of activities but were not reported as revenues in the fund financial statements.  Amounts reported as fund revenues that met the criteria for revenue recognition under the full accrual method of accounting in the preceding fiscal year have been excluded from the current year statement of activities.  Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of debt principal is reflected as an expenditure in the governmental funds, whereas the repayment reduces long-term liabilities in the statement of net assets. Debt principal payments (\$35,700,467) exceeded bond proceeds (\$20,550,000) and capital lease proceeds (\$11,651,171) by this amount.  Expenses reported in the statement of activities include amortization of the deferred amount on debt refunding (\$1,027,749) and amortization of deferred debt issuance costs (\$324,241). In addition, the amortization of bond premium results in reduction of expenses of \$1,994,254. These amounts do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  Debt issued at a premium provides current financial resources to governmental funds, but increases long-term liabilities in the statement of net assets.
Governmental funds report capital outlays as expenditures. In addition, the amortization of bond premium results in reduction of expenses of \$1,994,254. These amounts do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  642  Debt issued at a premium provides current financial resources to governmental funds, but increases long-term
liabilities in the statement of net assets. Repayment of debt principal is reflected as an expenditure in the governmental funds, whereas the repayment reduces long-term liabilities in the statement of net assets. Debt principal payments (\$35,700,467) exceeded bond proceeds (\$20,550,000) and capital lease proceeds (\$11,651,171) by this amount.  Expenses reported in the statement of activities include amortization of the deferred amount on debt refunding (\$1,027,749) and amortization of deferred debt issuance costs (\$324,241). In addition, the amortization of bond premium results in reduction of expenses of \$1,994,254. These amounts do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  642  Debt issued at a premium provides current financial resources to governmental funds, but increases long-term
(\$1,027,749) and amortization of deferred debt issuance costs (\$324,241). In addition, the amortization of bond premium results in reduction of expenses of \$1,994,254. These amounts do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  642  Debt issued at a premium provides current financial resources to governmental funds, but increases long-term
Debt issuance costs are expenditures of governmental funds, but are deferred assets in the statement of net assets.
Expenses reported in the statement of activities include the increase in the liability for accrued interest of \$261,318. In addition, the increase in the balance of the net pension asset decreased expenses by \$776,482. Furthermore, the increase in the balance of the liability for other post-employment benefits increased expenses by \$237,412, and the decrease in the compensated absences liability balance of \$195,358 decreased expenses by that amount. These amounts do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.
The Primary Government provided a capital asset to the Board. This transaction did not use current resources to governmental funds, but resulted in the recognition of expense in the statement of activities. (14,763)
The decrease in the fair value of an interest rate swap accounted for as an investment derivative instrument in the statement of activities did not use current resources in governmental funds. (3,031)
Internal service funds are used by management to charge certain costs (e.g., certain employee benefits, insurance, maintenance, and use of equipment) to individual funds. The net revenue (expense) amounts of the internal service funds are reported with governmental activities.  (1,045)
Change in Net Assets of Governmental Activities \$ (31,395)

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Reporting Entity

Knox County (the County), founded in 1792, is a political subdivision of the State of Tennessee. The County operates under a County Mayor – County Commission form of government pursuant to the Knox County Home Rule Charter (the Charter) established under Tennessee Code Annotated, Section 5-1-208, effective September 1, 1990. The County Mayor serves an elected term of four years. The nineteen County Commissioners serve four-year terms and are elected by district votes within the County. As required by accounting principles generally accepted in the United States of America, these financial statements present the County and its Component Units. The County is considered to be the primary government. Component Units are legally separate entities for which the County is considered to be financially accountable. These Component Units are discretely presented in separate columns in the government-wide financial statements to emphasize they are legally separate from the County.

#### Discretely Presented Major Component Units - the County

The **Knox County Board of Education** (the Board) consists of nine members elected by voters of the County and one superintendent appointed by members of the Board. The Board is fiscally dependent on the County because the County levies taxes for the Board, issues debt on behalf of the Board and approves the Board's Budget. The Board is responsible for elementary and secondary education within the County's jurisdiction. The Board operates a total of 86 vocational and handicapped centers, primary, intermediate, middle and high schools. The full-time equivalent average daily membership during the 2009 - 2010 school year was 55,459 with a full time equivalent average daily attendance of 51,809. During the previous year, the full time equivalent average daily membership was 55,120 with a full time equivalent average daily attendance of 51,549.

The **Knox County Railroad Authority** (KCRA) was established by Knox County in April 1999, to provide for the continuation of rail service within the County. KCRA is governed by a two-member Board consisting of the County Mayor and a member selected by the County Commission. KCRA is fiscally dependent on the County for approval of all debt issuances.

The **Knox County Emergency Communications District** (the District) is an emergency response agency operating a consolidated public safety answering point service and emergency radio dispatch service for the residents of the County. The District is governed by an eleven-member Board of Directors, of whom the majority are appointed by the County. Debt issuances or lease agreements exceeding five years require County approval. The District has the authority to levy an emergency telephone service charge to be used to fund the emergency telephone service. The County, however, may reduce the levy provided the reduction does not preclude the District from the authorized activities established in the Tennessee Code Annotated.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### A. Reporting Entity (Continued)

Complete financial statements for the District may be obtained at the entity's administrative offices:

Knox County Emergency Communications District 605 Bernard Avenue Knoxville, TN 37921

The Board and KCRA do not issue separate financial statements from those of the County. Fund financial statements for the Board are, therefore, included in these financial statements. The activities of KCRA are accounted for in a single fund, and the information presented in the government-wide financial statements also constitutes the fund financial statements.

#### Discretely Presented Major Component Unit - the Board

The Great Schools Partnership Charitable Trust (the Partnership) was established during the fiscal year ended June 30, 2005. Its purpose is to support the Knox County Schools by expending funds in furtherance of the exempt purposes of the Board or by distributions of funds directly to the Board. The Partnership is a legally separate, tax-exempt organization governed by a thirteen-member board consisting of representatives of the Board, Knox County, the City of Knoxville, and various other governmental, educational, and not-for-profit organizations. Although the Board does not control the timing or amount of expenditures made by the Partnership, the majority of the resources, or income therefrom, that the Partnership holds are restricted to the exempt purposes of the Board by the donors. Therefore, the Partnership is considered a component unit of the Board and is discretely presented in the Board's financial statements.

The Partnership does not issue separate financial statements. Its activities are accounted for in a single fund, and the information presented in the Board's financial statements also constitutes the fund financial statements.

#### B. Government-wide and Fund Financial Statements

The accompanying financial statements of the County have been prepared in conformity with accounting principles as generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **B.** Government-wide and Fund Financial Statements (Continued)

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and pension trust fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and employ the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are "measurable and available". "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The County considers property tax revenues available if they are collected within 60 days after the fiscal year end. All other revenues are considered available if collected within one year after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, as under accrual accounting, except for debt and certain compensated absences which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

#### Notes to Financial Statements June 30, 2010

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are considered susceptible to accrual. Sales taxes collected and held by the state at year-end on behalf of the County are also recognized as revenue. Other receipts and taxes become measurable and available when cash is received by the County and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible-to-accrual criteria are met. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

**Fund Accounting:** The accounts of the County are organized, operated and presented on the basis of funds. Funds are independent fiscal and accounting entities with self-balancing sets of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

*Governmental Funds* are used to account for the County's general government activities. The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government except those that are required to be accounted for in another fund.

The *Constitutional Officers Fund* accounts for activities associated with the administrative functions of the County's Constitutional Officers.

The *Public Improvement Fund* accounts for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds, exclusive of construction activity related to the Americans with Disabilities Act.

The *Debt Service Fund* accounts for the servicing of general long-term debt not being financed by proprietary funds.

**Proprietary funds** are used to account for governmental activities that are similar to activities that may be performed by a commercial enterprise.

*Enterprise funds* account for operations that provide services primarily to the general public on a user charge basis. During the fiscal year ended June 30, 2009, the County commenced the management and operation of the Three Ridges Golf Course. These operations are accounted for as an enterprise fund.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

*Internal service funds* account for operations of the County that provide services to other departments, agencies, other governments, component units, and joint ventures on a cost reimbursement basis

Activities accounted for in the internal service funds include: (1) provision of gasoline and maintenance services for County vehicles, (2) operation of a central mailroom, (3) payment of retiree medical premiums, employee retirement, life insurance and other payroll related expenses, and unemployment claims, (4) accounting for the payment of workers' compensation and general liability claims, (5) provision of central maintenance for County buildings, (6) providing technical support for electronic data processing functions, (7) providing leased vehicles and equipment to County departments, and (8) accounting for the payment of employee health insurance claims.

*Fiduciary funds* account for assets held by the County in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the government under the terms of a formal trust agreement. Fiduciary funds include the following:

The *pension trust funds* are accounted for in essentially the same manner as the proprietary funds, using the same measurement focus and basis of accounting. The pension trust fund accounts for the assets of the County's defined benefit pension plan, defined contribution pension plan, its defined contribution medical retirement plan, and the Uniformed Officers Pension Plan. Plan member contributions are recognized in the period when contributions are due and payable in accordance with the terms of the plan. Employer contributions are recognized when due and the County makes a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Fiduciary funds also include agency funds used to account for the receipt and disbursement of funds held for various third parties. Agency funds include transactions related to (1) local sales taxes collected by the State of Tennessee and remitted to the County for distribution to other municipalities, (2) funds held on behalf of juvenile defendants, (3) funds held on behalf of subdivision developers pending completion of road and hydrology requirements, (4) cash held by the County on behalf of several external agencies and County joint ventures, and (5) funds held by various elected officials on behalf of state agencies and/or other funds.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

June 30, 2010

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governments also have the option of following subsequent private-sector guidance for their business-type activities subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first and then, unrestricted resources as they are needed.

#### Component Units

The Board of Education uses two major governmental funds (general fund and school construction capital projects), three nonmajor governmental (special revenue) funds, and fiduciary funds (pension trust fund, agency). These fund types use the same measurement focus and basis of accounting as those of the County. KCRA and the Partnership follow the County's governmental funds measurement focus and basis of accounting. The District follows the County's proprietary funds measurement focus and basis of accounting.

#### D. Assets, Liabilities and Equity

#### **Deposits and Investments**

The cash and cash equivalents of the County and its component units are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

June 30, 2010

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

#### Deposits and Investments (Continued)

The County maintains a pooled cash system through the Knox County Trustee. The fair value of purchased investments and investment income at fiscal year end is allocated to major funds based on the total cash position of that fund at fiscal year end. In accordance with County directive, the majority of interest earned during the year is allocated to the General Fund.

State statutes and local ordinances authorize the County and the Board to invest in certificates of deposit, the State Local Government Investment Pool, U.S. Treasury obligations, U.S. agency issues, corporate bonds, equity funds, short-term bond funds, and guaranteed investment contracts.

The County's and its component units' investments are carried at fair value. Short-term investments, however, are reported at cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price.

#### Receivables, Payables, and Deferred Revenue

In the County's fund financial reporting, transactions between County funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Transactions between the County and its component units that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from Component Units." All other outstanding balances between the County and its component units are reported as "due to/from Component Units/Primary Government."

In the fund financial statements governmental funds report deferred revenue in connection with receivables for revenues that are not considered available to liquidate liabilities of the current accounting period. Governmental funds also defer recognition of revenues in connection with resources that have been received, but not yet earned. The County accrues additional assets (receivables) for certain nonexchange revenues in governmental funds. As governmental funds are subject to the modified accrual basis of accounting, any additional revenues recognized as receivable before the resources are available have been reported as deferred revenues with no resulting effect on fund equity. Unearned revenue in the government-wide financial statements consists of resources received that have not yet been earned.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

All trade receivables are shown net of an allowance for doubtful accounts. Property taxes receivable are recognized as of the date an enforceable legal claim to the taxable property arises. In Tennessee, this date is January 1<sup>st</sup>, and is referred to as the lien date. Revenues from property taxes, however, are recognized in the period for which the taxes are levied, which for the County is October 1<sup>st</sup> of the ensuing fiscal year. Since the receivable for property taxes is recognized before the period of revenue recognition, the entire amount of the receivable, less an estimated amount for uncollectible taxes, is reported as deferred revenue in the fund financial statements and unearned revenue in the government-wide financial statements as of June 30<sup>th</sup>.

Property taxes receivable are also reported as of June 30<sup>th</sup> for the taxes that are levied and uncollected during the current fiscal year as well as the previous eight fiscal years. These property taxes receivable are presented on the fund balance sheet with offsetting deferred revenue to reflect amounts not available as of June 30<sup>th</sup>. Property taxes collected within 60 days of year-end are considered available and are accrued as revenue. Property taxes collected later than 60 days after year-end are not considered available and are accrued and reported as deferred revenue. An allowance for uncollectible taxes is also recorded representing the estimated amount of delinquent taxes receivable that will be filed with the court for collection. Delinquent taxes filed with the court for collection are considered uncollectible and are written off.

In the fund financial statements, the balance of notes receivable and advances between funds are offset by a fund balance reserve to indicate that they are not available for appropriation and are not expendable available financial resources.

#### **Inventories and Prepaid Assets**

The County maintains material inventory balances in its proprietary and governmental funds. Inventories in the proprietary funds are stated at the lower of cost or market. Inventories in the governmental funds are stated at cost. Inventories are accounted for under the consumption method. Supplies for resale and the cost of oil and gasoline in the internal service funds use the first-in, first-out (FIFO) flow assumption in determining cost. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid assets.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

#### Inventories and Prepaid Assets (Continued)

The Board values school supplies inventories using the specific identification method. The Board's Central Cafeteria Fund inventories are composed of food supplies. These inventories are stated at cost.

The County's general fund inventory consists of land held for resale. The land is recorded at cost excluding the cost of infrastructure (roads, utilities, etc.). In the governmental funds the balance of prepaid assets and inventories are offset by a fund balance reserve to indicate that they are not available for appropriation and are not expendable, available financial resources.

#### **Derivative Instruments**

Effective July 1, 2009, the County adopted the provisions of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* (Statement No. 53). Statement No. 53 requires the County to recognize all its derivative instruments on the Statement of Net Assets at fair value. The provisions of Statement No. 53 have been applied retroactivity by restating financial statements for all prior periods presented. See Note IV. (I) for impact of this restatement.

The County analyzes its derivative instruments into hedging derivative instruments and investment derivative instruments, as defined by Statement No. 53. If a derivative is classified as a hedging derivative instrument, changes in its fair value are deferred on the Statement of Net Assets as either deferred inflows or deferred outflows. If the derivative is classified as an investment derivative instrument, changes in its fair value are reported on the Statement of Activities in the period in which they occur. Such changes are included in the County's investment Income (loss). See Note III. (H) for more detailed analysis. The County formally assesses the effectiveness of its hedging derivative instruments at each year-end.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend asset lives are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Public domain infrastructure includes long-lived assets, primarily roads; system infrastructure includes street lighting and other assets with shorter expected useful lives. Depreciation is computed using the straight-line method generally over the following useful lives:

<u>Assets</u>	Years
Buildings	45
Land Improvements	10 - 20
Public Domain Infrastructure	40
System Infrastructure	25
Vehicles	5
Machinery and Equipment	5 - 20
Intangibles	5

It is the County's and the District's policy to capitalize the cost of the rights to externally acquired software as an intangible asset.

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

#### **Compensated Absences**

It is the policy of the County and its component units to permit employees to accumulate, in varying amounts, earned but unused vacation, compensatory time and sick pay benefits. There is no liability recorded for unpaid accumulated sick leave since the County does not have a policy to pay any such amounts upon separation from employment. Vacation and compensatory pay from the County's and the Board's governmental funds are not reported in their respective fund financial statements because it is not expected that such amounts would be liquidated with expendable available financial resources. No expenditure is reported for these amounts. For the County and Component Unit governmental activities, compensated absences liabilities are generally liquidated by the respective general fund. The compensated absences liability and the related change in liability are reported in the government-wide and proprietary fund financial statements of the County and its component units.

#### **Long-Term Obligations**

The County and the Board record long-term debt in the government-wide financial statements. Similarly, long-term debt and other obligations financed by the County's proprietary funds and the District are recorded as liabilities in the appropriate funds.

Bond premiums and discounts, as well as deferred amounts on refundings, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable unamortized bond premium or discount and deferred amounts on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt on the straight-line basis.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### Fund Equity

In the fund financial statements of the governmental funds, reservations of fund balances represent amounts that are not appropriable or are legally segregated for a specific purpose. Designations of fund balances represent tentative management plans that are subject to change and are available for appropriation at the discretion of management.

#### **Notes to Financial Statements**

June 30, 2010

#### NOTE I: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Assets, Liabilities and Equity (Continued)

#### Fund Equity (Continued)

Net assets in government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted, and unrestricted. Restricted net assets represent constraints on resources that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by County law.

#### E. Additional Information

#### Comparative Data/Reclassifications

Comparative total data for the prior year has been presented in selected sections of the accompanying financial statements to provide an understanding of the changes in the financial position and operations of the County and the Board. Comparative totals have not been included on statements where their inclusion would not provide enhanced understanding of the reporting entity's financial position and operations or would cause the statements to be unduly complex and difficult to understand. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

#### NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Budgetary Data

#### **Budget Basis/Authority**

Annual budgets, as required by the County Charter and applicable County ordinances, are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds, except the Constitutional Officers Fund and the Public Improvement Capital Projects Fund.

June 30, 2010

#### NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### A. Budgetary Data (Continued)

The Constitutional Officers Special Revenue Fund is used to account for the transactions of the fee and commission accounts of the County Trustee, Register of Deeds, County Clerk, Criminal and Fourth Circuit Court Clerk, Circuit and General Sessions Court Clerk, and Clerk and Master. These separately elected officials pay salaries and related expenditures from fees and commissions earned by their offices.

Excess fees and commissions are transferred to other funds. In some instances, all fees and commissions earned are transferred to other funds. Transactions related to the Constitutional Officers Special Revenue Fund are not subject to the budgetary control of the County Commission. Therefore, this fund is presented as an unbudgeted special revenue fund.

The Drug Control Special Revenue Fund was established in the 1998 fiscal year pursuant to an amendment of Tennessee Code Annotated Section 39-17-420, stipulating drug control activities to be reported in a special revenue fund. The budget for this fund is a separately adopted budget proposed by the Sheriff and approved by the County Commission.

The County's Public Improvement Capital Projects Fund and the Board's School Construction Capital Projects Fund each adopt project-length budgets for major construction projects rather than annual budgets for these projects. The Board adopts annual budget amounts for certain expenditures within these funds. In fiscal years prior to 2008, the County also adopted an annual budget for certain expenditures included in the Public Improvement Capital Projects Fund. Beginning in 2008, all activities included in that fund are accounted for by use of project-length budgets. The County's Americans with Disabilities Act (ADA) Construction Capital Projects Fund's budget is adopted on an annual basis.

Budgets for portions of the County's State and Federal Grants Fund and all of the Board's School Projects and School Federal Projects Funds are generally adopted at the time the grant or program has been approved by the grantor, so the Commission can fulfill any requirement to appropriate local matching funds at the time of adoption.

With the exception of project length budgets and grants, all appropriations lapse at fiscal year end.

#### **Budgetary Process**

On or before April 15, heads of all County departments and agencies submit requests for appropriations to the County Department of Finance. The Board prepares a comprehensive budgetary request that is also sent to the Department of Finance. This budget has been approved by the members of the Board of Education and is sent to the County for adoption.

#### NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### A. Budgetary Data (Continued)

The Department of Finance in conjunction with the Office of the County Mayor compiles the requests, negotiates with the various departments and submits a comprehensive budget to the County Commission. By July 1, the final County and Board budget is adopted by County Commissioners.

The appropriated County budget is prepared at the fund, department, and major category level. For the County, the legal level of budgetary control, that is, the level at which management cannot overspend funds without a budget amendment approved by the Finance Committee of the County Commission, is the major category level within departments. The major categories are Personal Services, Employee Benefits, Contracted Services, Supplies and Materials, Other Charges, Debt Service and Capital Outlay.

The budget adopted by the County for the Board is recommended by the County Mayor and adopted in total. The County does not exercise control over the Board at the department or major category level. After the budget for the Board is approved, the Board of Education may modify it within the total appropriation granted by the County Commission.

The budget and actual schedules included herein are not intended to demonstrate compliance at the legal level of budgetary control. Such statements and schedules are included in the County's separately issued *Budget Report to Citizenry*. Copies of the report may be obtained from the Knox County Department of Finance or online at: <a href="http://www.knoxcounty.org/finance/budget.php">http://www.knoxcounty.org/finance/budget.php</a>.

Knox County Department of Finance Room 630 City County Building 400 Main Avenue Knoxville, TN 37902

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. Outstanding encumbrances are reappropriated in the subsequent year.

#### NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### A. Budgetary Data (Continued)

#### Supplemental Appropriations

The following schedule shows the annual budget originally adopted for the County and the Board, and the revisions to that budget as authorized by the County Commission, for the year ended June 30, 2010:

Fund	 Original Budget		Revisions		Revised Budget	
Governmental Funds:						
General Fund	\$ 166,544,606	\$	4,381,079	\$	170,925,685	
Special Revenue Funds:						
State and Federal Grants	199,932		1,575,931		1,775,863	
Governmental Library	195,000		-		195,000	
Public Library	12,837,000		116,663		12,953,663	
Solid Waste	4,477,550		67,386		4,544,936	
Hotel/Motel Tax	5,558,192		-		5,558,192	
Fire District	200,000		-		200,000	
Drug Control	-		698,607		698,607	
Engineering & Public Works	 12,413,634		1,378,688		13,792,322	
Total Special Revenue Funds	35,881,308		3,837,275		39,718,583	
Debt Service Fund	 68,472,000		<u>-</u>		68,472,000	
Capital Projects Funds:						
ADA Construction	 400,000		1,157,200		1,557,200	
Total - Governmental Funds	\$ 271,297,914	\$	9,375,554	\$	280,673,468	

#### NOTE II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### A. Budgetary Data (Continued)

Fund	 Original Budget	]	Revisions	Revised Budget		
Component Unit - the Board:						
General Fund: General Purpose School	\$ 375,250,000	\$	5,481,871	\$	380,731,871	
Special Revenue Funds: Central Cafeteria	 23,742,500		237,098		23,979,598	
Capital Projects Fund: School Construction	 19,802,665		<u>-</u> _		19,802,665	
Total - the Board	\$ 418,795,165	\$	5,718,969	\$	424,514,134	

Designated funds, as of June 30, 2010, in the General Fund and Public Library Fund reappropriated in the subsequent fiscal year totaled \$1,374,544 and \$2,977, respectively.

Remaining supplemental appropriations primarily represent funds designated during the previous fiscal year, encumbrances outstanding at June 30, 2010, and grant awards appropriated at the time the award is received.

A local ordinance requires a two-thirds approval of the County Commission before reducing any County fund balance below an amount equal to five percent of the total amount budgeted in the fund. State law stipulates that the Board's General Purpose School Fund balance in excess of three percent of the budgeted annual operating expenses for the current fiscal year may be budgeted and expended for nonrecurring purposes but shall not be used for recurring annual operating expenses.

#### NOTE III. DETAILED NOTES ON ALL FUNDS

#### A. Deposits and Investments

The County, the Board and the District maintain a cash and investment pool through the County Trustee's office. The County Trustee is the treasurer of the County and in this capacity is responsible for receiving, disbursing, depositing and investing most funds. The carrying amount of balances approximates bank balances.

The Trustee of Knox County utilizes a negotiated sweep agreement for a portion of funds held by the Trustee. These funds are invested each night in various instruments, but under the County's policy these funds are classified as Cash and Cash Equivalents.

Other investments are held in the State of Tennessee's Local Government Investment Pool ("LGIP") and are not subject to categorization. Fair value of investments held in the LGIP approximates carrying value.

Cash and investments for the County and its Component Units as shown in the financial statements follows:

					Component Units			
		Primary		The				The
	(	Government		Board		KCRA		District
Cash on Hand	\$	8,647	\$	-	\$	-	\$	-
Carrying Amount of Deposits		50,137,307		67,115,604		32,260		12,007,953
Investments (Governmental Funds)		36,616,725		-		_		-

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### A. Deposits and Investments (Continued)

#### Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the County's governmental activities investments are managed by an investment board, whose objectives are to maximize earnings while reducing the exposure to interest rate risks to a low level by utilizing a mixture of short and long-term maturity investments, primarily in investments in U.S. Government Securities and securities issued by agencies of the U.S. Government. The County's and Board's Pension Trust fund activities are managed by the Knox County Retirement Board, whose objectives are to maximize earnings while reducing the exposure to interest rate risks to an appropriate level by using a mixture of long-term and short-term investments in various debt and equity securities. The investments of the County's defined benefit plan and the Board's defined benefit plan are included in a single trust account. The following represents the County's governmental activities investments and the activities of the County's and the Board's Pension Trust funds:

	Primary Government, Governmental Activities			Fiduciary Activities, Primary Government and Board			
		Fair Value or Carrying Amount	Weighted Average Maturity (Years)		Fair Value or Carrying Amount	Weighted Average Maturity (Years)	
Cash Equivalents Classified as Investments	\$	6,976,126		\$	4,624,786

Total Fixed Income Securities	\$	29,640,599	1.212	\$	15,713,830	4.106	

#### Custodial credit risk

The County's policies limit deposits and investments to those instruments allowed by applicable state laws. Tennessee State Law requires financial institutions to secure a local government's deposits by pledging governmental securities as collateral. The market value of pledged securities must equal at least 105% of the average daily balance of deposits. Alternatively, financial institutions that hold public deposits may participate in the State's collateral pool.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### A. Deposits and Investments (Continued)

#### Custodial Credit Risk (Continued)

A portion of the County's, the Board's and the District's deposits at June 30, 2010 were covered by the bank collateral pool administered by the Treasurer of the State of Tennessee (the State). Banks participating in the pool report the aggregate balance of their public fund accounts to the State. Collateral to secure these deposits must equal between 90 - 115 percent of the average daily balance of public deposits held and must be pledged to the State Treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in aggregate rather than against each individual account. The members of the pool may be required to pay an assessment to cover any deficiency.

#### Credit risk

The County's policies are designed to maximize investment earnings, while protecting the security of principal and providing adequate liquidity, in accordance with all applicable laws. The County's and Board's Pension Trust funds are managed with long-term objectives that include maximizing total investment earnings. State statutes and County policies allow the Pension Trust funds a broader range of investments than those available to the governmental activities. The credit risk of the investments of the County's governmental activities and the County's and Board's Pension Trust funds investments in fixed-income securities (excluding U.S. Government securities) is as follows:

				Fiduciary Activities, Primary Government

Net Total Receivables	\$	151,939,207	\$ 642,924	\$ 5,604					

The General Fund has the following note receivable at June 30, 2010:

(1) A note receivable from the Knoxville-Knox County Community Action Committee (CAC) with an initial balance of \$2,300,000 was originated during the fiscal year ended June 30, 2004. The note resulted from an arrangement between the County and CAC whereby certain proceeds from debt issued by the County were used to construct a facility on CAC's behalf. CAC agreed to reimburse the County by repaying the annual amounts of the County's related debt service requirements. The resulting note receivable is due in varying principal installments, plus interest, through 2022. As of June 30, 2010, \$1,619,000 remained outstanding.

The County's Debt Service Fund has the following notes receivable at June 30, 2010:

(1) Notes receivable from the Knox-Chapman Utility District (KCUD) and the West Knox Utility District of Knox County (WKUD) have current balances of \$1,455,000 and \$1,770,000, respectively. The basis of these notes is an agreement made by the County to participate with the utility districts to expedite utility relocation and upgrading necessary for construction of improved roadways within the northwest portion of the County. Each district was advanced up to \$2,000,000, which was disbursed by the County in installments upon receipt of draw notices. The advances are non-interest bearing and are individually payable in four varying installments every five years based on the completion dates of the respective projects. The amount to be repaid also includes \$140,000, recognized as revenue when received, that each district must pay to cover the County's administrative, accounting and financial costs associated with the agreements.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### **B.** Receivables (Continued)

(1) A loan receivable from the Industrial Development Board of Blount County was made for the purpose of providing financial assistance to the Board for the acquisition and development of property as a business and industrial park. The loan bears interest at 5% annually and is to be repaid from amounts to be received by the Board from land sales and other revenues related to the park. At June 30, 2010, the loan balance was \$6,020,000.

The State and Federal Grants Special Revenue Fund had \$3,665,472 of notes receivable at June 30, 2010. These note agreements are from eligible County citizens participating in various state and federal low-income housing projects. These notes are executed with a range of below market interest rates and varying repayment terms.

#### Advances to Other Government

During the fiscal year ended June 30, 2006, the County advanced \$2,500,000 to the Knoxville-Knox County Community Action Committee (CAC). An additional advance during the fiscal year ended June 30, 2009 for \$3,500,000 was made to CAC from Knox County. These advances were made to provide funding for operations and are to be repaid from grant monies and other funding received by CAC.

### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

### C. Capital Assets

Activity in the County's and the Component Unit's capital assets for the fiscal year ended June 30, 2010, was the following:

#### G. Leases

### **Operating Leases**

The County leases various facilities under noncancelable operating leases. Total costs for such leases for the County were \$2,400 for the year ended June 30, 2010. The future minimum lease payments as of June 30, 2010, were as follows:

Year Ending June 30	Primary	Government
2011	\$	2,400
2012		2,400
2013		2,400
2014		2,400
2015		2,400
2016-2020		12,000
2021-2023		7,200
Total	\$	31,200

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### G. Leases (Continued)

#### Capital Leases

The Primary Government and the District and Board, component units of the County, lease various equipment through capital leasing arrangements. The District's capital lease obligations are reflected as fund liabilities. The Primary Government's and the Board's capital lease obligations are reflected as liabilities in the Statement of Net Assets.

The future minimum lease obligations are as follows:

				t		
				The		The
Year Ending June 30,	Primary Government		District		Board	
2011	\$	1,127,699	\$	670,923	\$	2,047,910

2021 - 2024		4,608,875				8,498,155
Total Minimum Lease Payments		15,952,847		670,923		30,181,241
Less: Amounts Representing Interest		(4,301,676)		(10,923)		(7,717,334)
Present Value of Minimum Lease Payments	\$	11,651,171	\$	660,000	\$	22,463,907

Capital lease obligations currently outstanding for the Primary Government and Component Units are as follows:

Lessor	Purpose	Interest Rate	Last Maturity Date	Principal Balance
Primary Government:				
Bank of America	Energy Management Equipment	4.60%	4/9/2024	\$ 11,651,171
Component Unit:				
The District Sun Trust Leasing	CAD/CTI Equipment	3.31%	10/1/2010	\$ 660,000
The Board				
Bank of America	Energy Management Equipment	3.85%	4/30/2023	\$ 8,675,578
Bank of America	Energy Management Equipment	4.60%	4/9/2024	13,788,329
				\$ 22,463,907

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities

#### Capital Outlay Note

In June 2008, the County issued a general obligation note payable in the amount of \$3,263,507 to purchase capital equipment. The note bears interest of 3.5% and matures as follows:

Fiscal Year Ending June 30,	Principal	I	nterest	Total		
2011	\$ 1,000,000	\$	35,306	\$	1,035,306	

In December 2008, the County issued a general obligation note payable in the amount of \$ 3,538,969 to purchase capital equipment. The note bears interest of 3.5% and matures as follows:

Fiscal Year Ending June 30,	Principal	 Interest	Total		
2011 2012	\$ 1,000,000 1,000,000	\$ 70,613 35,306	\$	1,070,613 1,035,306	
Total	\$ 2,000,000	\$ 105,919	\$	2,105,919	

#### **Bond Anticipation Note**

In June 2009, the County issued a bond anticipation note totaling \$30,000,000, plus an issuance premium of \$332,400. The proceeds will be used for capital purposes. The note bears interest at 2.5%, payable semiannually, with a single payment of principal due on June 1, 2011.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### General Obligation and Public Improvement Bonds

The County issues general obligation and public improvement bonds to provide funds for the acquisition and construction of major capital facilities. Except for the County's General Obligation Series 2007 (Taxable) pension obligation bonds issued pursuant to the establishment of the Uniformed Officers Pension Plan, all County bonded debt was issued for capital purposes.

For financial reporting purposes, the portion of those bond issues related to the Board are recorded directly as bond proceeds in the Board's Capital Projects Fund. The County issues all the debt on behalf of the Board, in the County's name and with a full faith and credit pledge from the County. Therefore, from a legal perspective, the debt is County debt. In practice, the County's Five-Year Capital Plan, its Debt Service Fund and its Operating Budget are all developed with the Board providing funds from its operations to make the debt payments related to County debt issued on behalf of the Board. However, as all bonded indebtedness is County debt, the entire balance is recorded as a liability of the primary government in the government-wide financial statements.

As all bonded indebtedness is County debt, the portion issued on behalf of the Board is not considered capital-related debt in the primary government's statement of net assets. However, the total amount of the County's bonded indebtedness is considered capital-related in the total reporting entity column of the statement of net assets.

Bond indebtedness for the County is backed by the full faith and credit of the County.

Bonds payable to be repaid from resources of the County and the Board currently outstanding are as follows:

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### **Current Refunding Issue**

The County issued \$4,550,000 fixed-rate general obligation bonds to provide funds for the current refunding of the County's variable-rate Series III-B-3 (Women's Basketball Hall of Fame) bonds.

#### Prior Year Defeasance of Debt

In prior years, the County defeased certain general obligation and other bonds by placing the proceeds of the new bonds in an irrevocable trust to provide all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. On June 30, 2010, \$45,625,000 of bonds outstanding is considered defeased.

#### Interest Rate Swaps

Under its loan agreement, the Public Building Authority of Blount County, TN (the "Authority"), at the request of the County, has entered into an interest rate swap agreement for all of the outstanding Local Government Improvement Bonds, Series C-1-A.

Objective of the interest rate swap. In order to protect against the potential of rising interest rates and to balance its mixture of variable and fixed rate debt, the County requested the Authority, on its behalf, to enter into an interest rate swap in connection with its \$72 million Series C-1-A variable-rate bonds. The intention of the swap was to effectively change the County's variable interest rate on the bonds to a synthetic fixed rate.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

*Terms*. Under the swap, the Authority pays the counterparty a fixed payment of 3.95 percent and receives a variable payment computed as 63.2 percent of the five-year London Interbank Offered Rate (LIBOR). The swap has a notional amount of \$72 million and the associated variable-rate bond has a \$72 million principal amount. The interest rate swap agreement is based on the same amortization schedule as the outstanding principal of the Series C-1-A Bonds. The bonds' variable-rates have historically approximated the Securities Industry and Financial Markets Association Index<sup>TM</sup> (the "SIFMA"). The bonds and the related swap agreement mature on June 1, 2029. As of June 30, 2010, rates were as follows:

	Terms	Rates
Interest rate swap:		
Fixed payment by Authority	Fixed	3.95%
Variable payment to Authority	% of LIBOR	-1.70%
Net interest rate swap payments		2.25%
Variable-rate bond coupon payments		0.27%
Synthetic interest rate on bonds		2.52%

Fair value. As of June 30, 2010, the swap had a negative fair value of (\$8,959,706). The negative fair value of the swap may be countered by reductions in total interest payments required under the variable-rate bond, creating lower synthetic rates. Because the rates on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value model calculates future cash flows by projecting forward rates, and then discounts those cash flows at their present value.

Credit risk. As of June 30, 2010, the County was not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap becomes positive, the County would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty, Morgan Keegan Financial Products ("MKFP") was rated "A+" by Standard and Poor's as of June 30, 2010, with its Credit Support Provider, Deutsche Bank, rated Aa3/A+/AA- by Moody's, Standard & Poor's and Fitch, respectively.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

*Basis risk.* As noted above, the swap exposes the County to basis risk should the rate on the bonds increase to above 63.2% of LIBOR, thus increasing the synthetic rate on the bonds. If a change occurs that results in the rate on the bonds to be below 63.2% of LIBOR, then the synthetic rate on the bonds will decrease.

Termination risk. The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination provision." The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. If the swap is terminated, the variable-rate bond would no longer carry a synthetic interest rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value. Likewise, if the swap has a positive fair value at termination, the counterparty would be liable to the Authority for a payment equal to the swap's fair value.

Swap payments and associated debt. As of June 30, 2010, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term were as follows. As rates vary, variable-rate bond interest payments and net swap payments will vary.

<u>Variable Rate Bonds</u>

Under its loan agreement, the Public Building Authority of Sevier County, TN (the "Authority"), at the request of the County, has entered into an interest rate swap agreement for all of the outstanding Local Government Improvement Bonds, Series VI-A-1.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

Objective of the interest rate swap. In order to protect against the potential of rising interest rates and to balance its mixture of variable and fixed rate debt, the County requested the Authority, on its behalf, to enter into an interest rate swap in connection with its \$70 million Series VI-A-1 variable-rate bonds. The intention of the swap was to effectively change the County's variable interest rate on the bonds to a synthetic fixed rate.

*Terms*. Under the swap, the Authority pays a fixed payment of 3.745 percent and receives a variable payment computed as 59 percent of the five-year London Interbank Offered Rate (LIBOR). The swap has a notional amount of \$70 million and the associated variable-rate bond has a \$70 million original principal amount. The interest rate swap agreement is based on the same amortization schedule as the outstanding principal of the Series VI-A-1 Bonds. The bonds' variable-rates have historically approximated the Securities Industry and Financial Markets Association Index™ (the "SIFMA"). The bonds and the related swap agreement mature on June 1, 2029. As of June 30, 2010, rates were as follows:

	Terms	Rates
Interest rate swap:		
Fixed payment by Authority	Fixed	3.40%
Variable payment to Authority	% of LIBOR	-1.59%
Net interest rate swap payments		1.81%
Variable-rate bond coupon payments		0.26%
Synthetic interest rate on bonds		2.07%

Fair value. As of June 30, 2010, the swap had a negative fair value of (\$6,975,460). The negative fair value of the swap may be countered by reductions in total interest payments required under the variable-rate bond, creating lower synthetic rates. Because the rates on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value model calculates future cash flows by projecting forward rates, and then discounts those cash flows at their present value.

Credit risk. As of June 30, 2010, the County was not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap becomes positive, the County would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty, Morgan Keegan Financial Products ("MKFP") was rated "A+" by Standard and Poor's as of June 30, 2010, with its Credit Support Provider, Deutsche Bank, rated Aa3/A+/AA- by Moody's, Standard & Poor's and Fitch, respectively.

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

*Basis risk.* As noted above, the swap exposes the County to basis risk should the rate on the bonds increase to above 59% of LIBOR, thus increasing the synthetic rate on the bonds. If a change occurs that results in the rate on the bonds to be below 59% of LIBOR, then the synthetic rate on the bonds will decrease.

Termination risk. The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination provision." The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. If the swap is terminated, the variable-rate bond would no longer carry a synthetic fixed interest rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value. Likewise, if the swap has a positive fair value at termination, the counterparty would be liable to the Authority for a payment equal to the swap's fair value.

Swap payments and associated debt. As of June 30, 2010, debt service requirements of the variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term were as follows. As rates vary, variable-rate bond interest payments and net swap payments will vary.

Variable Rate Bonds											
Fiscal Year			Net Interest Rate								
Ending June 30	Principal	Interest	Swap Payment	Total							
2011	\$ 700,000	\$ 176,540	\$ 1,225,962	\$ 2,102,502							
2012	800,000	174,720	1,213,323	2,188,043							
2013	900,000	172,640	1,198,879	2,271,519							
2014	1,000,000	170,300	1,182,629	2,352,929							
2015	2,000,000	167,700	1,164,573	3,332,273							
2016-2020	17,010,000	729,300	5,064,540	22,803,840							
2021-2025	22,570,000	480,454	3,336,457	26,386,911							
2026-2029	22,920,000	152,750	1,060,755	24,133,505							
	\$ 67,900,000	\$ 2,224,404	\$ 15,447,118	\$ 85,571,522							

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

Under its loan agreement, the Public Building Authority of Blount County, TN (the "Authority"), at the request of the County, has entered into an interest rate swap agreement for all of the outstanding Local Government Improvement Bonds, Series D-3-A.

Objective of the interest rate swap. In order to protect against the potential of rising interest rates and to balance its mixture of variable and fixed rate debt, the County requested the Authority, on its behalf, to enter into an interest rate swap in connection with its \$77 million Series D-3-A variable-rate bonds. The intention of the swap was to effectively change the County's variable interest rate on the bonds to a synthetic fixed rate.

Terms. Under the swap, the Authority pays the counterparty a fixed payment of 3.89 percent and receives a variable payment computed as 63.2 percent of the five-year London Interbank Offered Rate (LIBOR). The swap has a notional amount of \$77 million and the associated variable-rate bond has a \$77 million principal amount. The interest rate swap agreement is based on the same amortization schedule as the outstanding principal of the Series D-3-A Bonds. The bonds' variable-rates have historically approximated the Securities Industry and Financial Markets Association Index (the "SIFMA"). The bonds and the related swap agreement mature on June 1, 2034. As of June 30, 2010, rates were as follows:

	Terms	Rates
Interest rate swap:		
Fixed payment by Authority	Fixed	3.89%
Variable payment to Authority	% of LIBOR	-1.70%
Net interest rate swap payments		2.19%
Variable-rate bond coupon payments		1.31%
Synthetic interest rate on bonds		3.50%

#### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

#### H. Long-Term Liabilities (Continued)

#### Interest Rate Swaps (Continued)

Fair value. As of June 30, 2010, the swap had a negative fair value of (\$11,336,904). The negative fair value of the swap may be countered by reductions in total interest payments required under the variable-rate bond, creating lower synthetic rates. Because the rates on the government's variable-rate bonds adjust to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value model calculates future cash flows by projecting forward rates, and then discounts those cash flows at their present value.

Credit risk. As of June 30, 2010, the County was not exposed to credit risk because the swap had a negative fair value. However, should interest rates change and the fair value of the swap becomes positive, the County would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty, Morgan Keegan Financial Products ("MKFP") was rated "A+" by Standard and Poor's as of June 30, 2010, with its Credit Support Provider, Deutsche Bank, rated Aa3/A+/AA- by Moody's, Standard & Poor's and Fitch, respectively.

*Basis risk.* As noted above, the swap exposes the County to basis risk should the rate on the bonds increase to above 63.2 percent of LIBOR, thus increasing the synthetic rate on the bonds. If a change occurs that results in the rate on the bonds to be below 63.2 percent of LIBOR, then the synthetic rate on the bonds will decrease.

Termination risk. The derivative contract uses the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The Schedule to the Master Agreement includes an "additional termination provision." The Authority or the counterparty may terminate the swap if the other party fails to perform under the terms of the contract. If the swap is terminated, the variable-rate bond would no longer carry a synthetic interest rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value. Likewise, if the swap has a positive fair value at termination, the counterparty would be liable to the Authority for a payment equal to the swap's fair value.

	\$ 72,850,000	\$15,892,267	\$ 26,536,345	\$115,278,612							

#### Subsequent Event – Debt Issuance

Subsequent to June 30, 2010, the County issued \$30,115,000 in general obligation bonds. The bond proceeds provided funds for the refunding of the County's \$30,000,000 bond anticipation note. In an additional transaction subsequent to June 30, 2010, the County entered into a loan agreement totaling \$29,236,000 with the Tennessee State School Board Authority. The loan proceeds will be used for various school improvement projects. In addition, subsequent to June, 30, 2010, the County issued \$32,560,000 in general obligation bonds. The bond proceeds provided funds for the refunding of the County's \$11,651,171 capital lease obligation and the Board's capital lease obligations of \$8,675,578 and \$13,788,329.

#### J. Property Taxes

Property taxes levied by the County Commission are the primary source of revenue for the County and the Board. Assessed values are established by the State of Tennessee at the following rates of assumed market value:

Personal Property	30 %
Railroads, Industrial and Commercial Property	40 %
Public Utility	55 %
Residential and Farm Real Property	25 %

### NOTE III. DETAILED NOTES ON ALL FUNDS (Continued)

### J. Property Taxes (Continued)

Taxes were levied at a rate of \$2.36 per \$100 of assessed values. Tax collections of \$227,063,669 for fiscal year 2010 were approximately 96 percent of the total tax levy.

The 2010 fiscal year property tax rate of \$2.36 was divided between the County and the Board as follows:

	A	mount	Total
Primary Government:			
General Fund	\$	0.97	41.10%
Debt Service Fund		0.31	13.14%
Total - Primary Government		1.28	54.24%
Component Unit - the Board:			
General Fund - General			
Purpose School Fund		1.08	45.76%
Total Tax Levy	\$	2.36	100.00%

The 2011 fiscal year property tax rate of \$2.36 is divided as follows:

			Percent of
	A	mount	Total
Primary Government:			
General Fund	\$	0.97	41.10%
Debt Service Fund		0.31	13.14%
Total - Primary Government		1.28	54.24%
Component Unit - the Board:			
General Fund - General			
Purpose School Fund		1.08	45.76%
Total Tax Levy	\$	2.36	100.00%

#### NOTE IV. OTHER INFORMATION

#### A. Joint Ventures

The County is a participant in a joint venture with the City of Knoxville and the Knoxville Utilities Board in the operation of the Geographic Information Systems. The Geographic Information Systems was established to create and maintain a digitized mapping system of Knox County. Each of the participants appoints one of the three board members who oversee the operations. In March 1987, the County issued public improvement bonds, which included \$5,500,000 used to install the geographic information system. In accordance with the terms of the joint venture agreement, payments are shared between the County, the City of Knoxville and the Knoxville Utilities Board. In the 2010 fiscal year, the joint venture received 91 percent of its revenues from the participants in the joint venture. The Geographic Information Systems charged the County \$346,754 for the year ended June 30, 2010. The County does not retain an equity interest in the joint venture. Complete separate financial statements for the Geographic Information Systems may be obtained at 606 Main Street, Suite 150, Main Place, Knoxville, TN 37902.

The County is a participant in a joint venture with the City of Knoxville in the operation of the Animal Center, which was established to administer the service delivery system for the care of animals. The Animal Center Board consists of eleven members appointed by the Mayor of the City of Knoxville, the Knox County Mayor, the Knox County Commission, and the Knoxville Academy of Veterinary Medicine. The Center's operations are primarily funded by the City of Knoxville and Knox County. In the 2010 fiscal year, the joint venture received 61 percent of its revenues from the City of Knoxville and Knox County. Complete separate financial statements may be obtained at 3201 Division Street, Knoxville, TN 37919.

The County is a participant in a joint venture with the City of Knoxville in the operation of the Public Building Authority of the County of Knox and the City of Knoxville, Tennessee (PBA). The Authority was created to purchase, construct, refurbish, maintain and operate certain public building complexes to house the governments of the County and the City of Knoxville. The County appoints six of an eleven-member board of directors, which oversee the operations of PBA. The fact that the County appoints a majority of the board is negated by the participants' agreements calling for joint control of PBA. The County retains an equity interest in the joint venture. Complete separate financial statements for PBA may be obtained at Room M-22, City County Building, 400 Main Avenue, Knoxville, TN 37902.

#### **NOTE IV. OTHER INFORMATION (Continued)**

#### **B.** Related Organizations

The County is responsible for all of the board appointments of the Knox County Industrial Development Board. However, the County has no further accountability for the organization.

The County is responsible for a minority of the board appointments for the Knoxville-Knox County Community Action Committee. During the year ended June 30, 2010, the County appropriated operating subsidies of \$1,363,702 to the Community Action Committee.

The County and the Tourism & Sports Development Corporation of Knoxville/Knox County (TSDC) have entered into a contract for the operations management of the Women's Basketball Hall of Fame (the Hall). The County will pay TSDC a management fee. Pursuant to that contract, TSDC will manage the day-to-day operations and events at the facility and will collect revenues for the County and pay the operating expenses from these revenues. All revenues collected by TSDC are the property of the County and held by TSDC in trust as public funds and applied to pay operating expenses in accordance with the budget. To the extent revenues are insufficient, TSDC will pay operating expenses out of its management fee. The revenues and expenses for the operation of the Hall are as follows:

Revenues from Operations	\$ 427,500
Management Fee	 150,000
Total Revenues	 577,500
Total Expenses	 (575,600)
Net Income	\$ 1,900

Pursuant to the contract, which commenced on September 1, 1999 and expires on June 30, 2013, to the extent revenues and the management fee payable to TSDC are insufficient to cover operating expenses, such deficiency shall be paid by TSDC from such funds as are available to TSDC for such purpose.

#### **NOTE IV. OTHER INFORMATION (Continued)**

#### C. Risk Financing

The County has established risk-financing funds (the Employee Benefits Fund, the Self Insurance Healthcare Fund, and the Self Insurance Fund) associated with the employee's health insurance plan and payments to cover worker's compensation and general liability claims and settlements, respectively. The Board and the District (component units), the Geographic Information Systems and the Animal Center (joint ventures between the County and the City of Knoxville), and the Knox County-City of Knoxville Metropolitan Planning Commission (a separate governmental organization) also participate in the plan.

The risk financing funds are accounted for as internal service funds where assets are set aside for claim settlements. On January 1, 2008, Knox County became self-insured offering County employees and their families healthcare coverage using Cigna Healthcare of Tennessee as a third-party administrator. In the Self Insurance Healthcare Fund a premium is charged to each fund, participating Component Unit, joint venture, or outside entity that accounts for eligible employees. The total charges for the funds are calculated using trends in actual claims experience. In instances where medical claims materially exceed premiums received, each participating entity is charged a pro-rata basis for any fund deficits incurred.

In the Self Insurance Fund, each fund, participating Component Unit, and participating outside entity is charged for claims incurred during the year and estimated claims at year-end. The total charges for the funds are calculated using trends in actual claims experience. Provisions are also made for unexpected and unusual claims.

Liabilities of the funds are recorded when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation and recent claim settlements. Changes in the balances of claims during the past two fiscal years are as follows:

				althcare Fund -	Self Insurance Fund - General Liability,							
		Medi	cal (	Claims	and Workers' Compensation							
	Fisc	cal Year 2010		Fiscal Year 2009	Fise	cal Year 2010	Fiscal Year 2009					
Unpaid Claims - Beginning	' <u>-</u>											
Balance	\$	1,587,442	\$	1,729,348	\$	5,445,226 \$	5,127,889					
Incurred Claims (Including												
IBNR's)		22,099,432		20,402,392		799,480	4,160,130					
Claim Payments		(21,858,049)		(20,544,298)		(1,673,299)	(3,842,793)					
Unpaid Claims - Ending Balance	\$	1,828,825	\$	1,587,442	\$	4,571,407 \$	5,445,226					

#### NOTE IV. OTHER INFORMATION (Continued)

#### C. Risk Financing (Continued)

The County and the Board purchase insurance coverage for personal and real property. The District purchases insurance coverage for personal and real property, general liability and workers' compensation coverage. The County and its component units have had no significant reduction in insurance coverage over the last three years. Settlements have not exceeded insurance coverage in the past three fiscal years.

#### **D.** Other Post Employment Benefits

#### Plan Description

As authorized by County Resolution, the County provides post-retirement health care benefits for County and classified school retirees and their dependents. The retiree is responsible for paying 100 percent of the related premium. The retirees who have chosen to participate in the County's medical insurance plan have not been evaluated on a separate experience rating from those of existing County and Board employees. Therefore, participating retirees contribute the same premium as existing employees, plus the amount the employer contributes for existing employees. Under this arrangement the retiree contributions are expected to be less than their expected health care cost, and a portion of the premiums the County pays on behalf of its active employees is deemed to subsidize the retirees' costs. This implicit subsidy is an Other Post-employment Benefit (OPEB) as defined by GASB Statement No. 45. The County's medical insurance plan, a single-employer defined benefit plan, does not issue a separate financial report.

#### **Funding Policies**

The contribution requirements of the County healthcare plan members and the County are established in the annual budget approved by County Commission. The required contribution is based on the annual premiums for the healthcare plan. The participant pays a portion of the premium cost and the County pays the remaining premiums. For health insurance, the retiree contributes 100% of all premium payments. For the fiscal year ended June 30, 2010, the retirees contributed \$311,771 to the plan.

#### Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liability over a period not to exceed thirty years.

#### NOTE IV. OTHER INFORMATION (Continued)

#### D. Other Post Employment Benefits (Continued)

The plan contains both active employees and retirees. Although the County's annual contribution is 41.8% of premium payments for the combined participants, the share of claims related to retirees represents a higher percentage of the total claims. Accordingly, contributions reflected in the OPEB calculations have been adjusted to reflect that a portion of contributions for active employees are subsidizing the retiree claims.

As the OPEB consists solely of the implicit subsidy of retiree healthcare contributions, the County has elected to have actuarial valuations performed biennially.

The following table shows the components of the County's annual OPEB cost, the amounts contributed to the plan, and changes in the County's net OPEB obligation:

Annual Required Contribution	\$ 253,109
Interest on net OPEB Obligation	8,808
Adjustment to annual required contribution	 (9,536)
Annual OPEB Cost	252,381
Contribution made	 (105,436)
Increase (decrease) in net OPEB obligation	146,945
Net OPEB obligation July 1, 2009	 220,211
Net OPEB obligation June 30, 2010	\$ 367,156

Annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

	Percentage										
Fiscal Year		Annual	of Annual OPEB	N	Net OPEB						
Ended	OPEB Cost		Cost Contributed	0	bligation						
June 30, 2008 June 30, 2010	\$	281,467 252,381	53.90% 41.80%	\$	129,744 367,156						

#### Funded Status and Funding Progress

As of July 1, 2009, the most recent actuarial valuation date, the County healthcare plan was 0% funded. The actuarial accrued liability for benefits was \$2,434,379, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,434,379.

#### NOTE IV. OTHER INFORMATION (Continued)

#### **D.** Other Post Employment Benefits (Continued)

#### Actuarial Valuations

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the Plan and the annual required contributions of the County Plan members are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following these notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities.

#### Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive Plan (the Plan as understood by the employer and the Plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the County and Plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2010 valuation, the projected unit credit cost method was used. The actuarial assumptions included a funded interest rate of 4.0% and a participation rate of 12%. Annual health care costs are assumed to increase 9% in the first year of valuation. Future annual increases are assumed to grade uniformly to 5% by the year 2017. The UAAL is being amortized as a level percentage of projected payrolls on a closed basis. The remaining amortization period at June 30, 2010 was 26 years.

#### **NOTE IV. OTHER INFORMATION (Continued)**

#### E. Commitments and Contingencies

The County and its component units are parties to various legal proceedings, a number of which normally occur in governmental operations. As discussed in Note IV.C., amounts have been accrued in the County's Self Insurance Fund for the estimated amounts of claims liabilities.

The County receives significant financial assistance from the Federal and State governments in the form of grants and entitlements. These programs are subject to various terms and conditions, compliance with which is the responsibility of the County. These programs are subject to financial and compliance audits by the grantor agencies. Any costs disallowed as a result of such audits could become a liability of the County. As of June 30, 2010, the amount of any liabilities that could result from such audits cannot be determined. However, the County believes that any such amounts would not have a material adverse effect on the County's financial position.

The County and the Board have several outstanding construction projects as of June 30, 2010. The County also has a five-year Capital Improvement Plan which addresses major capital needs for the County and the Board. Although the Capital Improvement Plan does not represent legal appropriations or contractual commitments, it does represent priorities as determined by the County and the Board.

### NOTE IV. OTHER INFORMATION (Continued)

### E. Commitments and Contingencies (Continued)

The following represents capital projects funds spent to date, current contractual obligations, and future plans as presented in the Capital Improvement Plan for the five fiscal years beginning July 1, 2010 and ending June 30, 2014:

					Capital

#### **NOTE IV. OTHER INFORMATION (Continued)**

#### E. Commitments and Contingencies (Continued)

Construction projects for both the County and the Board are primarily funded by general obligation bonds.

#### F. Deferred Compensation

The County and the Board jointly offer their employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The District also offers its employees a separate deferred compensation plan. The plans, available to all full-time County, Board and District employees at their option, permit participants to defer a portion of their salary, at least \$20 per month, until future years. The deferred compensation is not available to participants until termination, retirement, death or an unforeseeable emergency. (See also Employee Retirement Plans).

#### G. Constitutional Officers

The Constitutional Officers Special Revenue Fund includes the operations of the following elected officials:

*Trustee* - serves as the treasurer and primary investment manager of the County's funds and manages property tax collection efforts.

*Knox County Clerk* - serves as the Clerk of the County Commission. Principally engaged in the sale of motor vehicle licenses and acceptance of applications of motor vehicle registrations of the State of Tennessee.

Circuit and General Sessions, Criminal and Fourth Circuit Courts Clerks and Clerk and Master - serve as the clerical and support staff for the various courts for both civil and criminal proceedings.

*Register of Deeds* - collects various fees for the recording of conveyances, trust deeds, chattels, charters, plats and other legal instruments.

These officials, responsible for the collection and remittance of State, County and other funds, earn fees and commissions for their services.

#### NOTE IV. OTHER INFORMATION (Continued)

#### **G.** Constitutional Officers (Continued)

The operations of the Constitutional Officers are operated under the provisions of Section 8-22-104, Tennessee Code Annotated (TCA). Salaries and related benefits of the officials and staff are paid from fees and commissions earned. Fees earned in excess of these costs are remitted to the County's General Fund, less an allowance of three months of anticipated operating expenses retained in the respective fee account. Salaries for clerical assistance were supported by chancery court decrees that were obtained under provisions of Section 8-20-101, et seq., TCA. These activities are accounted for in the County's Constitutional Officers' Special Revenue Fund.

Collections and payments for litigants, heirs and others are accounted for in the County's Constitutional Officers' Agency Fund.

Other operating costs of these offices (excluding salaries and benefits) are accounted for in the County's General Fund. These budgeted amounts are approved by the County Commission in accordance with the County Charter. Fees remitted by the officials in excess of salaries and benefits are used to offset the cost to the General Fund.

Included in the Supplementary Schedules of the County's Comprehensive Annual Financial Report are schedules (reported on the cash basis of accounting) of detailed operations of the respective offices for the fiscal year ended June 30, 2010. These schedules only include the cash operations of the offices. They do not include the expenditures reported in the County's General Fund.

#### **NOTE IV. OTHER INFORMATION (Continued)**

#### **H.** Accounting Pronouncements

The County adopted GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, required for fiscal periods beginning after June 15, 2009, in fiscal 2010. This Statement establishes accounting and financial reporting requirements for intangible assets. The adoption of this Statement did not have a material effect on the County's financial condition and results of operations.

The County adopted GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, required for fiscal periods beginning after June 15, 2009, in fiscal 2010. This Statement requires governments to measure most derivative instruments at fair value in their financial statements that are prepared using the economic resources measurement focus and the accrual basis of accounting. See Note III. (H) for impact to the County during fiscal 2010.

The County plans to adopt GASB Statement No. 54, *Fund Balance Reporting and Governmental Type Definitions*, required for fiscal periods beginning after June 15, 2010, in fiscal 2011. This Statement revises fund balance categories and classifications, and clarifies governmental fund type definitions.

The County plans to adopt GASB Statement No. 59, *Financial Instruments Omnibus*, required for periods beginning after June 15, 2010, in fiscal 2011. This Statement updates and improves existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools.

#### I. Restatement

During the fiscal year ended June 30, 2010, the County adopted GASB Statement No. 53, *Accounting and Reporting for Derivative Instruments*. The provisions of this Statement apply to the three interest rate swap arrangements, which are accounted for as derivative instruments, applicable to certain of the County's long-term debt issues. The swap agreements, as more fully described in Note III (H), exist for the purpose of protecting against the potential of rising interest rates and balancing the mixture of variable and fixed rate debt. The Statement requires that the fair value of the derivative instruments be disclosed in the County's Statement of Net Assets. The Statement also requires that the derivative instruments be evaluated and a determination made as to whether the instruments are effective in hedging the associated exposure to identified financial risk. The Statement specifies the methods to be used to evaluate effectiveness. As a result of the evaluation, it was determined that one of three interest rate swaps was not an effective hedge based on the criteria specified in the Statement. Accordingly, the net assets total of the Primary Government – Governmental Activities as of July 1, 2009 has been restated to \$116,510,195, a reduction of \$3,944,017 from the previously reported total of \$120,454,212, as of June 30, 2009.

#### NOTE V: EMPLOYEE RETIREMENT PLANS

#### A. General Information

County and Board employees are covered by a variety of retirement plans. These plans fall into two categories - defined contribution and defined benefit plans. The majority of County and Board employees participate in *defined contribution plans*. Those not included in the defined contribution plan are certificated teachers covered under the Board's Article IX Defined Benefit Plan for former Knoxville City School teachers, all certificated County school teachers, certain non-certificated employees who elected not to transfer to the primary defined contribution plan or sworn officers in the Sheriff's Department who elected to transfer to the Uniformed Officers Pension Plan (UOPP) effective July 1, 2007, or were hired as a sworn officer on or after June 1, 2007. Required disclosures for the Defined Contribution Plans are presented in Note V-A. County certificated school teachers participate in the State Retirement Plan for Teachers as administered by the Tennessee Consolidated Retirement System (TCRS). Certain County Officials also participate in this plan.

The State of Tennessee provides benefits for participants in the TCRS, a cost-sharing multiple-employer Public Employee Retirement System (PERS). In a multiple-employer PERS, all risks and costs are shared proportionately among the participating employers. A single actuarial valuation is computed for the TCRS as a whole and all participating employer groups make payments to the TCRS based on a pre-determined contribution rate. However, as the TCRS prepares a separate financial report on its multiple-employer defined benefit plan, the operations and activities of this plan are not included in the County's reporting entity and are not included in the accompanying financial statements.

The three defined contribution plans and the three single employer defined benefit plans are part of the County's financial reporting entity and are included in the accompanying financial statements. The operations of the Knox County Employee Benefit System (County DB Plan), the County's Defined Contribution Plan (County DC Plan), the County's Uniformed Officers Pension Plan (UOPP DB Plan), and the County's Medical Retirement Defined Contribution Plan (Medical Retirement DC Plan) are recorded as County pension trust funds. The operations of the Board's Certificated Teacher's Defined Benefit Plan (Teacher's DB Plan) are recorded in the Board's pension trust fund. Separate financial reports for the three defined contribution plans and the three single employee defined benefit plans are not separately prepared.

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### **B.** Defined Contribution Plans

The County DC Plan is a defined contribution plan (an asset accumulation plan) established by Knox County under Section 401(a)(9) of the Internal Revenue Code. The plan covers substantially all full time employees of the County. Plan benefits depend solely on amounts contributed to the plan plus investment earnings. Participation begins on the first day of employment and all eligible employees not participating in another County, Board or state retirement plan are required to participate.

Prior to July 1, 1999, plan members were required to contribute a minimum of four percent and could contribute up to a maximum of fifteen percent of compensation. The County and the Board matched member contributions up to 6% of compensation.

Effective, July 1, 1999, the Knox County Retirement Board amended plan provisions to require all participants to contribute a minimum of 6% of compensation.

At June 30, 2010, there were 4,378 active plan members. During the year, the employer and member contributions (prior to forfeitures) amounted to \$7,804,490 and \$7,802,582 respectively.

Effective July 1, 2007, the Asset Accumulation Program incorporated both a 401(a) Plan and a 457(b) Plan in the Defined Contribution Plan for Knox County participants and classified Board participants. The Knox County Voluntary 457 Plan incorporates voluntary pre-tax contributions by the participant with an employer match based on length of service with the County and/or Board. The employer will match:

Years of Service	Maximum % Match
0 - 5	0%
5 - 9	2%
10 - 14	4%
15 or more	6%

In January 2008, the Pension Board added two additional outside 457 Vendors as investment alternatives. Knoxville Teachers Credit Union (Board employees only) and Security Benefit were added January 1, 2008 and contributions made by participants in the Asset Plan would also be eligible for the match offered by the employer. In September 2008, Nationwide, a third 457 Vendor was added to the Program. Each vendor prepares separate financial reports for the three outside 457 plans.

#### **NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)**

#### **B.** Defined Contribution Plans (Continued)

Effective July 1, 2008 the option of contributing to a 457(b) Plan was expanded to those active participants in the closed Defined Benefit (DB) Plan. The employer match for the closed DB Plan participants is a maximum of 3% of pay. Closed DB participants are eligible for the same 457 Plans/Vendors that are offered under the Asset Accumulation Plan.

As of June 30, 2010, there were 957 Plan members. During the year, member contributions (prior to forfeitures) amounted to \$2,499,997 and the employer contributed \$1,521,264.

The *Medical Retirement Plan*, a voluntary defined contribution plan (an asset accumulation plan), was established by the County on July 1, 1998, under Section 401(a)(9) of the Internal Revenue Code. Plan benefits depend solely on amounts contributed to the plan plus investment earnings. Voluntary participation begins upon enrollment; eligible employees may begin participation on the first day of employment. The Plan was specifically created to assist employees in planning and investing for anticipated medical expenses upon retirement. Plan provisions and contribution requirements are established and may be amended by the Knox County Retirement Board.

#### Prior to July 1, 1999:

- (1) A participant reaching age 40 and completing at least five years of credited service received a one-time lump sum distribution of \$100 for each year of eligible service from the Knox County Retirement & Pension Board, and
- (2) A participant reaching age 40 and completing at least five years of credited service could make contributions to the plan in which the Pension Board would contribute a matching contribution of 50 percent up to a maximum of \$104 per year.

#### Effective July 1, 1999:

- (1) A participant reaching age 40 and completing at least five years of credited service received a one-time lump sum distribution of \$100 for each year of eligible service from the Knox County Retirement & Pension Board, and
- (2) A participant making contributions through payroll deductions to the Medical Retirement Plan would be eligible for a percent match contribution from the Knox County Retirement & Pension Board based on the percent approved by the Board for the year in question.

#### **NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)**

#### **B.** Defined Contribution Plans (Continued)

(3) Retirees are eligible for an additional distribution of a specific amount approved by the Board annually to help defer the retiree's medical costs. The history of this distribution is as follows:

Calendar Year 1999	\$600
Calendar Year 2000	\$600
Calendar Year 2001	\$840
Calendar Year 2002	\$420
Calendar Year 2003	\$120
Calendar Year 2004	\$0
Calendar Year 2005	\$120
Calendar Year 2006	\$120
Calendar Year 2007	\$120
Calendar Year 2008	\$120
Calendar Year 2009	\$120
Calendar Year 2010	\$120

Prior to calendar year 2010, the contributions were funded using excess funds as actuarially determined from the *County DB Plan* and recorded as a transfer from the *County DB Plan* to the *Medical Retirement DC Plan*. MERP funding for calendar years 2010 – 2014 is funded through additional contributions to the DB Plan from Knox County. This bonus will be paid to all retirees as of January 1 of each year and payment will occur during the first quarter of the same year.

Effective January 1, 2010, the Knox County Commission approved the funding for the retiree bonus in the amount of \$120 annually for each of the next five years. Active employees contributing to the Medical Expense Retirement Plan will receive a 25% match for the Retirement & Pension Board up to a maximum annual match of \$104. The Knox County Commission also committed to funding this for five years.

At June 30, 2010, the Medical Retirement Plan had 2,236 members and 817 of them contributed funds to the plan. During the year employer and member contributions amounted to \$64,045 and \$268,561, respectively.

Plan provisions and contribution requirements for the defined contribution plans are established and may be amended by the Knox County Retirement Board. The Knox County Retirement Board administers the plans. Administrative costs of the plans are paid with plan assets.

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### C. Defined Benefit Plans

Plan Descriptions

*Primary Government.* The *County DB Plan* is a single-employer public employee retirement pension plan established by the County Commission pursuant to House Bill Number 886 of Chapter 246 of the 1967 Private Acts of the State of Tennessee as amended and continued by the County's charter.

On October 1, 1991 through January 31, 1992, approximately one-half of the participants in the *County DB Plan* transferred from the *County DB Plan* to the *County DC Plan*. The transferred participants plus "new" enrollees in the defined contribution plan are non-contributing participants and continue to be covered under the *County Plan* disability and death benefit provisions. Effective September 30, 1991, the *County DB Plan* was closed to new participants.

The *County DB Plan* covered virtually all full-time County employees prior to October 1, 1991. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

The *Board*. The *Teachers' DB Plan*, established under Article IX of the Knox County Employee Benefit System, is a single-employer public employee retirement pension plan. Retirement benefits are provided to certain "covered certificated members" who are participants in Divisions A and B of the City of Knoxville Pension Plan. Pursuant to the abolition of the Knoxville City Schools on June 30, 1987, and the execution of the "Certificated Employees Participation Agreement" in November, 1994, both the City of Knoxville and the Board are each jointly and severally responsible for providing a portion of benefits. The County has established a trust for the purpose of funding its portion of total benefits attributable to the "covered certificated members." A "covered certificated member," is defined as that certificated teacher who (1) became an employee of the Knox County Board of Education as a result of the abolition of the Knoxville City Schools and (2) is entitled to maintain at his/her option a local pension plan membership as provided by decree of the Court of Appeals of Tennessee, Docket Number 736 dated December 30, 1987.

The *Teachers DB Plan* consists of Divisions A and B. There were no remaining Division B participants active as of June 30, 1995. Both Divisions A and B are closed to new Plan members. The Plan provides retirement, and disability benefits to the Plan members and their beneficiaries.

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### C. Defined Benefit Plans (Continued)

The *Uniformed Officers Pension Plan (UOPP)* was approved by the voters of Knox County at the November 2006 elections. The Plan was established July 1, 2007 with approximately 600 sworn Sheriff's Office employees electing to transfer their retirement balance from the Asset Accumulation Plan or the closed Defined Benefit Plan to the UOPP. The amount transferred from the participant's accounts totaled \$39,429,351. In addition, Knox County issued \$57 million of pension obligation bonds, and transferred the proceeds (net of issuance costs) totaling \$56,510,846 to the Plan.

All new employees hired on or after June 1, 2007, who are sworn officers of the Sheriff's Department, are required to join the UOPP. Each participant contributes 6% of pay until the participant has reached 30 years of credited service with the UOPP. All remaining funding needed for the Plan is the responsibility of Knox County.

In the County DB Plan, the Teachers' DB Plan, and the Uniformed Officers Pension Plan (UOPP) provisions and contribution requirements are established and may be amended by the Knox County Retirement Board. The Knox County Retirement Board administers the Plans. Administrative costs of the plans are financed through assets of the County DB Plan, the Teachers' DB Plan, and the UOPP Plan. Financial reports for the County DB Plan and the Teachers' DB Plan are not separately prepared. Financial reports for the UOPP Plan are not separately prepared.

Participant data at January 1, 2010 was as follows:

		Uniformed	
Description	County DB Plan	Officers' DB Plan	Teachers' DB Plan
Actives Contributing	174	690	36
Actives Not Contributing, DC Plan	4,506	-	-
Retirees, Beneficiaries, and Disableds	195	38	434
Retirees, DC Plan	1,495	-	-
Inactives with Contribution Accounts	268	5	15
Inactives, DC Plan	313	-	
Total Participants	6,951	733	485

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### C. Defined Benefit Plans (Continued)

The Knox County Schools contribute to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing multiple employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979 are vested after five years of service. Members joining prior to July 1, 1979 are vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34 - 37 of the Tennessee Code Annotated (TCA). The Tennessee General Assembly amends state statutes. Cost of living adjustments (COLA) are provided to retirees each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than onehalf percent. The annual COLA is capped at three percent.

Some employees of Knox County Mayor and Officials are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with ten years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after ten years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34 - 37 of the Tennessee Code Annotated (TCA). The Tennessee General Assembly amends state statutes. Political Subdivisions such as Knox County Mayor and Officials participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### C. Defined Benefit Plans (Continued)

The TCRS issues publicly available financial reports that include financial statements and required supplementary information for the SETHEEPP and PSPP. These reports may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10<sup>th</sup> Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at <a href="https://www.tn.gov/treasury/tcrs">www.tn.gov/treasury/tcrs</a>.

#### **Funding Policy**

In the *County DB Plan*, plan members are required to make contributions at the rate of 5.0% of earnable compensation. The County, however, is required to make contributions only to the extent necessary to maintain the funded status of the plan as actuarially determined. The employer contribution rate for the year ending June 30, 2010 was 26.3%.

In the *Teachers' DB Plan*, most plan members are required to contribute 3.0% of the first \$4,800 then 5.0% thereafter of salary to the plan. The employer contribution rate for the Board is established at an actuarially determined rate and was 112.51% of annual covered payroll for the year ending June 30, 2010.

In the *Uniform Officers Pension Plan*, participants contribute 6% of earnable compensation until they have 30 years of credited service with the UOPP Plan. The participant makes no contribution if he or she has 30 plus years of service. The County is required to make contributions to the extent necessary to achieve the funding status of the plan as actuarially determined. The employer contribution rate was 15.05% of annual covered payroll for the year ending June 30, 2010.

Under the *TCRS plan*, most teachers are required by state statute to contribute 5.0% of salary to the plan. The employer contribution rate for Knox County Schools is established at an actuarially determined rate. The employer rate for the fiscal year ending June 30, 2010 was 6.42% of annual covered payroll.

The employer contribution requirement for Knox County Schools is established and may be amended by the TCRS Board of Trustees. The employer's contributions to TCRS for the years ending June 30, 2010, 2009 and 2008 were \$14,055,635, \$13,901,667, \$12,751,467, respectively, equal to the required contributions for each year.

The TCRS plan for Knox County Mayor and Officials requires employees to contribute 5.0% of earnable compensation.

#### NOTE V: EMPLOYEE RETIREMENT PLANS (Continued)

#### C. Defined Benefit Plans (Continued)

Knox County Mayor and Officials are required to contribute at an actuarially determined rate; the rate for the County for the fiscal year ending June 30, 2010 was 12.48% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for Knox County Mayor and Officials is established and may be amended by the TCRS Board of Trustees. The annual required contributions for the current year were determined as part of actuarial valuations using the following significant assumptions:

	Primar	Component Unit - The Board		
	County DB Plan	Uniformed Officers DB Plan	TCRS	Teachers' DB Plan
				_
Actuarial Valuation Date	January 1, 2010	January 1, 2010	July 1, 2007	January 1, 2010
Actuarial Cost Method	Entry Age Normal	Entry Age Normal	Frozen Entry Age	Entry Age Normal
Actuarial Valuation of Assets	Smoothed Market	Smoothed Market	Smoothed Market	Smoothed Market
	Value Over 5 Years	Value Over 5 Years	Value Over 5 Years	Value Over 5 Years
Inflation Rate	3.00%	3.00%	3.50%	3.00%
Investment Return	7.50%	7.50%	7.50%	7.50%
Projected Salary Increases	3.50%	3.50%	4.75%	3.00%
Post Retirement Increases				
(Cost of Living Adjustments)	3.00%	3.00%	3.00%	3.00%

Under the Entry Age Normal cost method, the annual cost is equal to the normal cost, plus amortization of unfunded accrued liabilities over a fixed period of years selected within the minimum (10 years) and the Maximum (5 to 30 years) periods permitted by law.

In the TCRS, the unfunded actuarial liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2007 was 14 years.

#### Note to Required Supplementary Information June 30, 2010

#### **Budgetary Reporting**

The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (GAAP Basis) – General Fund presents comparisons of the original and final legally adopted budget with actual data.

The General Fund budget is prepared at the department and major category level. The legal level of budgetary control, that is, the level at which management cannot overspend funds without a budget amendment approved by the Finance Committee of the County Commission, is the major category level within departments. The major categories are Personal Services, Employee Benefits, Contracted Services, Supplies and Materials, Other Charges, Debt Service and Capital Outlay. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (GAAP Basis) – General Fund does not present the detail necessary to demonstrate compliance at the legal level of budgetary control. Such detailed schedules are included in the County's separately issued *Budget Report to Citizenry*. Copies of the report may be obtained from the Knox County Department of Finance or online at: <a href="http://www.knoxcounty.org/finance/budget.php">http://www.knoxcounty.org/finance/budget.php</a>.

Knox County Department of Finance Room 630 City County Building 400 Main Avenue Knoxville, Tennessee 37902

The County's Constitutional Officers Special Revenue Fund is the County's only major special revenue fund. The fund is used to account for the activities of the fee and commission accounts of the County Trustee, Register of Deeds, County Clerk, Criminal and Fourth Circuit Court Clerk, Circuit and General Sessions Court Clerk, and Clerk and Master. These officers earn various fees and commissions, pay certain expenses of their office operations, and transfer all or portions of the fees and commissions generated to other funds. The transactions related to the activities of these offices are not subject to the budgetary control of the County Commission. As there is no legally adopted budget for this fund, there is no budgetary comparison schedule presented in this report.

# **Supplemental Section**

### **GENERAL FUND**

The General Fund is used to account for resources traditionally associated with government that are not required legally or by sound financial management to be accounted for in another fund. The General Fund accounts for the normal recurring activities of the County (i.e. public safety, recreation, health and welfare, general government, etc.). These activities are funded principally by property taxes on individuals and businesses.

## NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

**State and Federal Grants Fund**: This fund is used to account for most State and Federal grant revenues.

**Governmental Library Fund**: This fund accounts for the operation of the law library that is available to the public but is used primarily by attorneys practicing in the courts. User fees are charged by the Governmental Library.

**Public Library Fund**: This fund is used to account for the operation of the County-wide public library system.

**Solid Waste Fund**: This fund is used to account for all solid waste and recycling activities.

**Hotel/Motel Tax Fund**: This fund accounts for the collection and use of the amusement tax to promote tourism and related economic activity in the County.

**Fire District Fund**: This fund is used to account for a separate tax for fire protection for businesses in an area commonly known as the Forks of the River Industrial Park.

**Drug Control Fund:** This fund was established pursuant to an amendment of Tennessee Code Annotated Section 39-17-420. This fund is used to account for drug control activities restricted for drug enforcement, drug education and non-recurring general law enforcement expenditures. This fund is primarily funded from the receipt of fines and costs related to drug enforcement cases.

**Highway Fund**: This fund is used to account for the County's share of the State gasoline and motor fuel taxes that are utilized to maintain non-state roads within the county.

#### **CAPITAL PROJECTS FUND**

**ADA Construction Fund**: This fund is used to account for construction activity related to the Americans with Disabilities Act.

# **INTERNAL SERVICE FUNDS**

Internal Service Funds are used to account for the financing of goods or services provided by one of the County's departments or agencies to other departments or agencies and to the County's various discretely presented component units and joint ventures.

**Vehicle Service Center Fund**: This fund is used to account for all gasoline and maintenance services for County vehicles.

**Mailroom Fund**: This fund is used to account for central mailroom services for the County.

**Employee Benefits Fund**: This fund is used to account for the payment of retiree medical premiums, employee retirement, life insurance, other payroll related expenses, and unemployment claims.

**Employee Retirement Fund**: This fund is used to account for the County's retirement plan operations.

**Self Insurance Fund**: This fund is used to account for the payment of workers compensation and general liability claims against the County.

**Central Maintenance Fund**: This fund is used to account for all maintenance services for Knox Central buildings.

**Technical Support Service Fund**: This fund accounts for technical support and technical repairs associated with electronic data processing.

Capital Leasing Fund: This fund is used for lease/purchase transactions to other departments. The fund also serves as a leasing entity for a fleet of vehicles or other equipment.

**Self Insurance Healthcare**: This fund is used to account for the payment of health insurance claims.

# FIDUCIARY FUNDS

Trust funds are used to account for assets held by the County in a trustee capacity. Agency funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds.

#### PENSION TRUST FUNDS

**Pension Trust Fund Defined Benefit:** This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees covered under the County's defined benefit plan.

**Pension Trust Fund Defined Contribution:** This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees covered under the County's defined contribution (asset accumulation) plan.

**Pension Trust Fund Defined Contribution Voluntary 457 Plan:** This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees who have chosen to participate in the County's defined contribution plan.

**Pension Trust Fund Medical Retirement Defined Contribution:** This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees covered under the County's defined contribution (asset accumulation) plan. This plan assists employees in planning and investing for anticipated medical expenses upon retirement.

**Pension Trust Fund Uniformed Officers:** This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees covered under the County's Uniformed Officers Pension Plan.

#### AGENCY FUNDS

**Municipal Sales Tax Fund**: This fund accounts for the local sales tax levied by local municipalities. These funds are collected by the State of Tennessee and remitted to the County for distribution to the municipalities.

**Juvenile Court Fund**: This fund accounts for the receipt and disposition of funds held on behalf of juvenile defendants.

**Subdivision Bonds**: This fund accounts for the receipt and distribution of funds held by the County from subdivision developers pending completion of road and hydrology requirements.

**External Agencies Fund**: This fund accounts for the cash of several external agencies and County joint ventures held by the County Trustee on their behalf.

**Constitutional Officers**: The various elected officials use this fund to account for the receipt and disbursement of funds on behalf of state agencies and/or other funds.

# **Component Unit – Board of Education**

# DISCRETELY PRESENTED COMPONENT UNIT KNOX COUNTY BOARD OF EDUCATION

This section presents combining and individual fund financial statements for the Knox County Board of Education (the Board), a discretely presented component unit. The Board uses a general fund, a capital projects fund, three special revenue funds, a pension trust fund, and an agency fund. This section also includes the Statement of Net Assets and Statement of Activities for the Board and its discretely presented component unit, the Great Schools Partnership.

#### **MAJOR FUNDS**

#### **GENERAL FUND**

**General Purpose School Fund**: This fund is used to account for general operations of the Board. Major funding is provided through local tax levies and state education funds.

### NONMAJOR GOVERNMENTAL FUNDS

#### CAPITAL PROJECTS FUND

**School Construction Fund:** This fund is used to account for the Schools' building construction and renovations of the Board.

#### SPECIAL REVENUE FUNDS

**School Federal Projects Fund**: This fund is used to account for restricted federal revenues that must be expended on specific education programs.

**School General Projects Fund**: This fund is used to account for state, local and federal pass-through revenues which must be expended on specific education programs.

**Central Cafeteria Fund**: This fund is used to account for the cafeteria operations in each of the individual schools. The primary sources of funding are federal and state revenues for the school lunch program and sales to students and adults.

#### FIDUCIARY FUND

**Pension Trust Fund**: This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees covered under the Board's defined benefit plan for certificated teachers.

#### **AGENCY FUND**

**School Activity Fund**: This fund accounts for the activity related to individual public school funds held in an agency capacity since these funds legally belong to students.

# Discretely Presented Component Unit Knox County Board of Education Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets

June 30, 2010

Amounts reported for governmental activities in the statement of net assets are different because:	
Ending Fund Balance - Governmental Funds	\$ 52,466,839
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	329,515,075
Certain revenues will be collected after year-end but not within the period considered available to pay current period expenditures. Therefore, these amounts were deferred in the fund financial statements but have been recognized under the accrual basis.	6,112,685
Long-term liabilities, consisting of compensated absences (\$2,431,988), capital lease obligations (\$22,463,907), and pension obligation (\$3,193,028), are not due and payable in the current period and therefore are not reported in the funds.	 (28,088,923)
Net Assets of Governmental Activities	\$ 360,005,676

# Discretely Presented Component Unit Knox County Board of Education Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:	
Net Change in Fund Balances - Total Governmental Funds	\$ 5,006,958
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$13,684,169) exceeded depreciation (\$11,698,485) in the current period.	1,985,684
The Primary Government provided a capital asset to the Board. This transaction did not provide current resources to governmental funds, but resulted in the recognition of revenue in the statement of activities.	14,763,666
Certain revenues will be collected after year-end but not within the period considered available to pay current period expenditures. Therefore, these amounts were recognized as revenues in the statement of activities but were not reported as revenues in the fund financial statements.	6,112,685
Amounts reported as fund revenues that met the criteria for revenue recognition under the full accrual method of accounting in the preceding fiscal year have been excluded from the current year statement of activities.	(6,825,570)
Capital lease proceeds provide current resources to governmental funds, but increase long-term liabilities in the statement of net assets.	(13,042,168)
The repayment of the capital lease reduces long-term liabilities in the statement of net assets.	1,040,584
Expenses reported in the statement of activities include the increase in the liability for compensated absences of \$321,805. In addition, the reduction of the net pension obligation of \$27,600 resulted in the reduction of expenses. These amounts do not require the use of current financial resources and, therefore, are not reflected in the expenditures of governmental funds.	(294,205)

## **Statistical Section**

#### STATISTICAL SECTION (Unaudited)

This part of Knox County Government's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Knox County's overall financial health.

Contents Page Financial Trends 230-238 These schedules contain trend information to help the reader understand how Knox County Government's financial performance and well-being have changed over time. Revenue Capacity 239-242 These schedules contain information to help the reader assess Knox County Government's most significant local revenue source, the property tax. **Debt Capacity** 243-245 These schedules present information to help the reader assess the affordability of Knox County Government's current levels of outstanding debt and the government's ability to issue additional debt in the future. Demographic and Economic Information 246-247 These schedules offer demographic and economic indicators to help the reader understand the environment within which Knox County Government's financial activities take place.

These schedules contain service and infrastructure data to help the reader understand how the information in Knox County Government's financial report relates to the services the government provides and the activities it performs.

Operating Information

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in fiscal year ended June 30, 2002; schedules presenting government-wide information include information beginning in that year.

**Source**: Knox County, Tennessee Trustee Department.

Notes: Assessment rates are set by Tennessee State Law as follows:

Real Property: Residential and Farm at 25% of value

Commercial and Industrial at 40% of value

Personal property at 30% of value

Public Utilities at 55% of value (Railroads 40%)

In FY 2009 a county-wide reappraisal was completed.
